Introduction

This *Basics Guide* introduces you to Sprint® service and all the features of your new device. It's divided into three sections:

- ◆ *Section 1: Your Device*
- ◆ *Section 2: Sprint Service*
- ◆ *Section 3: Safety and Warranty Information*

User Guide Note

*Because of updates in device software, this printed guide may not be the most current version for your device. Visit www.sprint.com and log on to **My Sprint Wireless** to access the most recent version of the user guide.*

WARNING

*Please refer to the **Important Safety Information** section on page 82 to learn about information that will help you safely use your device. Failure to read and follow the **Important Safety Information** in this User Guide may result in serious bodily injury, death, or property damage.*

WARNING

If your handset has a touchscreen display, please note that a touchscreen responds best to a light touch from the pad of your finger or a non-metallic stylus. Using excessive force or a metallic object when pressing on the touchscreen may damage the tempered glass surface and void the warranty. See "Manufacturer's Warranty" on page 91.

Section 1

Using Your Device

1A. Device Basics

- ◆ *Your Device* (page 2)
- ◆ *Viewing the Display Screen* (page 7)
- ◆ *Locking Your Device* (page 9)
- ◆ *Navigating Through the Menus* (page 10)
- ◆ *Displaying Your Phone Number* (page 11)
- ◆ *Making and Answering Calls* (page 11)
- ◆ *Entering Text* (page 17)

Note

For information about getting started with and activating your device, see the **Get Started** guide that is packaged with your device.

Tip

Device Software Upgrades – Updates to your device's software may become available from time to time. Sprint will automatically upload critical updates to your device. You can also use the menu to check for and download updates. Press  > **Settings > System > Update Firmware** to search for and download available updates.

Your Device

Key Functions

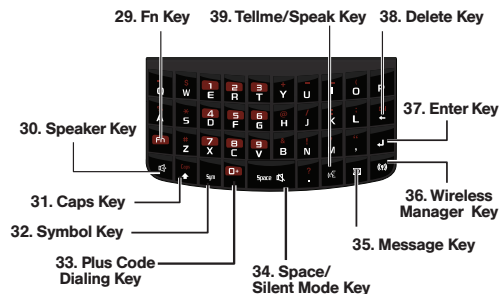

1. **Headset Jack** allows you to plug in either a stereo headset (included) or other compatible headset, for convenient, hands-free conversations.
CAUTION! Inserting an accessory into the incorrect jack may damage the device.
2. **Earpiece** lets you hear the caller and automated prompts.
3. **Display Screen** displays phone and device information, including call status, the Contacts list, the date and time, Windows Mobile menus, and the signal and battery strength.
4. **Navigation Key** scrolls through the device's menu options.
5. **Softkeys** let you select softkey actions or menu items corresponding to the bottom left and bottom right lines on the display screen.
6. **Windows Key** () provides access to the Windows Mobile menu settings, applications, and other configuration pages.

7. **TALK Key** () allows you to place or receive calls, answer Call Waiting, use Three-Way Calling, or activate Voice Dial.
- In standby mode, press once to access the dialer.
 - In standby mode, press twice to call the most recent phone number from the call history list.
8. **Speaker Key** lets you place or receive calls in speakerphone mode.
9. **Mirror** displays your reflection while taking pictures or shooting videos.
10. **External Speaker** allows you to hear the other caller (while Speakerphone is on) and the different ring tones or sounds offered by your device.
11. **Camera Lens**, as part of the built-in camera, lets you take pictures and videos.
12. **Microphone** allows other callers to hear you clearly when you are speaking to them.
13. **Keyboard** lets you enter letters, numbers, and punctuation using the familiar QWERTY layout.
14. **Delete Key** deletes characters from the display in text entry mode.
15. **END Key** () lets you turn the device's phone radio on or off, end a call, or return to standby mode. While in the main menu, it returns the device to standby mode and cancels your input. When you receive an incoming call, press to ignore the call.
16. **OK Key** () stores the current menu page options (acts the same as touching **OK** at the upper-right of a menu page or tab). When in a menu, pressing this key stores the current page's settings and returns you to the Today screen.
17. **Enter/Settings Key**, when on the Today screen, pressing  accesses the Settings page from where you can adjust the time and alarm settings. From other pages, pressing this key acts as an Enter key to then select the highlighted choice when navigating through a menu.
18. **Status Bar Icons** provide information about your device's status and options, such as signal strength, roaming, ringer setting, messaging, and battery charge.
19. **Indicator LED** shows your device's connection status at a glance.

20. **Light Sensor** lets you use the ambient light level to adjust both screen brightness/contrast and keyboard access.
- In a bright light condition (outdoors), the sensor causes the device to increase the brightness and contrast for better viewing.
 - In a dark light condition (while talking on the device) the sensor causes the device to adjust the brightness and contrast for better viewing.
21. **Charger/Accessory Jack** allows you to connect the device charger or an optional USB cable (included). CAUTION! Inserting an accessory into the incorrect jack may damage the device.
22. **Volume Button** allows you to adjust the ringer volume in standby mode or adjust the voice volume during a call. The volume button can also be used to scroll up or down to navigate through the different menu options. Press and hold the volume down key to activate the vibration mode.
23. **Stylus** storage location of included stylus touch pen. It is recommended that you use this pen when making your onscreen selections. Using your fingers can be less accurate, possibly scratch the screen, and leave residue.
24. **Reset Slot** lets you reset your device and ends all currently running applications. To reset your device, insert your stylus firmly into the slot and then quickly remove it.
25. **Camera Button** lets you activate the camera and camcorder and take pictures and videos.
26. **Power Button**, located at the side of the device, lets you either turn the device on or off (press and hold) or help conserve power by toggling the display screen on or off (single press).
- This single press conserves power by temporarily turning off the screen without shutting down the device. To turn the screen back on, simply press the button again.
 - Press and hold to turn the device on or off.
27. **SIM Card Slot** houses the pre-installed SIM card, which allows global roaming on compatible GSM and UMTS networks (service activation required). See “2E. Sprint Worldwide Wireless Service” on page 71 for details.

28. **microSD Card Slot** lets you use an optional microSD card (sold separately) to expand the memory of your device. See page 37.

Keyboard Features

29. **Fn Key** (Function) lets you access the numbers or symbols atop each key on the QWERTY keyboard. Activate the feature by pressing  and then pressing the desired key.
30. **Speaker Key** lets you place or receive calls in speakerphone mode.

31. **Caps Key** lets you enter capital letters (like the Shift key on a standard keyboard). See “Entering Text” on page 17.
32. **Symbol Key** lets you access symbol characters.
33. **Plus Code Dialing Key** automatically dials the international access code for the country in which you are located (for instance, 011 for international calls placed from the United States).
34. **Space/Silent Mode Key** lets you either add spaces between words and characters or activates the device’s silent mode.
- Press to insert a space while typing.
 - Press and hold to put your device in silent mode.
35. **Message Key** lets you create a new text message and access your configured email account and initiate a new email message.
36. **Wireless Manager Key** provides access to the Wireless Manager page from where you can configure the Wi-Fi, Bluetooth, and Phone settings.
37. **Enter Key** lets you enter additional lines of text.

38. **Delete Key** deletes characters from the display in text entry mode (like the Backspace key on a standard keyboard).
39. **Tellme/Speak Key** activates the Tellme feature that allows you to simply state a request (for information, business locations, etc.) and get it quickly.

Tip

The Windows () , Speaker, Symbol, Message, and Tellme/Speak key functions can be reassigned to different tasks. Press  > **Settings > Personal > Buttons > Program Buttons** tab and select a key and an action. The actions for the Windows, Speaker, and Symbol keys are activated by pressing and holding the key.

Note

Standard voice, text and data rates apply according to your wireless plan. This feature is only available on GPS-enabled devices.

Viewing the Display Screen

Your device's display screen provides information about your device's status and options. This list identifies the symbols you'll see on your device's display screen:

| Status Bar – Service Icons | |
|---|--|
|  | Signal Strength – Shows your current signal strength. (More bars = stronger signal.) |
|  | No Service – Your device cannot find a usable signal. |
|  | Phone Antenna Disabled – Your device's internal phone antenna has been turned off. |
|  | Call in Progress – Your device is currently in an active call. |
|  | Roaming – Your device is “roaming” off the Nationwide Sprint Network. |
|  | Sync Connected – Device is connected and communicating with your computer via ActiveSync or Windows Mobile Device Center. |

Status Bar – Service Icons

| | |
|---|--|
|  | 1X Data Sending/Receiving – Sprint 1xRTT data service is transmitting and receiving data. |
|  | 1X Data Unavailable – Sprint 1xRTT data service is unavailable. |
|  | EVDO Data Dormant – Sprint mobile broadband data service (EVDO) is dormant. |
|  | EVDO Data Active – Sprint mobile broadband data service (EVDO) is active. |
|  | Battery Charge Level – Shows your current battery charge level. (Icon shown is fully charged.) |
|  | Low battery – Shows your current battery charge level is low. |
|  | Battery Charging – Shows the device is connected to a power cable and is currently being charged. |
|  | Windows Start – Provides access to the Windows Menu page. |

Status Bar – Status Icons

| | |
|---|--|
|  | OK – Tap to accept and save the current page settings, and then exit. |
|  | Cancel/Exit – Tap to leave the current page without storing any changes. |
|  | Speaker On – Your device's speaker is active. Tap this icon to access the onscreen Volume slider and adjust the volume level. |
|  | Vibrate – Your device's the speaker is set to vibrate only. Tap this icon to access the onscreen Volume slider and adjust the volume level. |
|  | Silence All – Your device has the ringer deactivated and the vibrate option unchecked (disabled). No sound is made by the device. |
|  | Alarm – An alarm has been set on your phone. |
|  | Bluetooth Enabled – The Bluetooth technology is active and enabled. |
|  | Bluetooth Visible – The Bluetooth technology is active and the device is visible. |

Status Bar – Status Icons

Bluetooth Connected– The Bluetooth technology is active and communicating (paired) with a target Bluetooth device.

Wi-Fi Inactive – Your Wi-Fi connection is inactive.

Wi-Fi Active – Your Wi-Fi connection is active and communicating.

Status Bar – Messaging Icons

Notification – Shows there is a device notification that needs your attention, such as hidden icons, messages, missed calls, Bluetooth activity, etc.

Voicemail – You have a new voicemail message. Press and hold  to call your voicemail box.

Text Message – You have new text messages.

Email – You have new unread email messages.

Status Bar – Messaging Icons

Missed Call – You have missed an incoming call.

Locking Your Device

1. Press  from the *Today* screen.
2. Touch **Lock** (left softkey).

Unlocking Your Device

- Touch and drag the onscreen **Lock** button to either the left or right of the screen to reveal the Today screen.

Navigating Through the Menus

The navigation key on your device lets you scroll through onscreen items. Many menus feature a scroll bar on the right to help you keep track of your position in the menu.

To navigate through a menu, press the navigation key up or down or right or left (depending on the menu).

Selection via the Stylus

For selection of most onscreen items, especially those within the Status Bar area, it is recommended you use the included stylus to tap the desired option. The stylus is much more accurate than a finger.

Using Softkeys

Softkeys are special keys whose functions are determined by the currently active dialog, menu, or page.

The current function for these keys is displayed above them on the screen. Your device has a left () and a right softkey (

Selecting Menu Items

As you navigate through the menu using the navigation key, menu options are highlighted. Select any option by highlighting it and pressing  or by tapping it with the stylus.

For example, to adjust the device's sound setting:

1. From the Today screen, press .
2. Select **Settings** by either highlighting it and pressing  or by tapping the icon.
3. Select **Sounds & Notifications** by highlighting it and pressing  or by tapping the icon.
4. Select the options by tapping a corresponding field or box.

For the purposes of this guide, these steps condense into:

- Press  > **Settings** > **Sounds & Notifications**.

Backing Up Within a Menu

To go to the previous menu:

- ▶ If provided as an onscreen softkey, press **Back** (left softkey). If you do not see the softkey option, press  to return to the Today screen.

To return to standby mode (the Today screen):

- ▶ Press .

Note *The onscreen keyboard responds best when used with the included stylus. Using your fingers can result in less accurate selections.*

Displaying Your Phone Number

- ▶ Press  > **Settings** > **Personal** > **Phone**. (Your phone number is displayed at the top of the **Phone** tab along with your voicemail number and other information.)

Making and Answering Calls

Making Calls

1. From the Today screen, enter a phone number using the numbered keys on your keyboard. (If you make a mistake while dialing, press  to erase the numbers.)
2. Press .
3. Press  when you are finished.

Tip

To redial your last outgoing call, press  twice.

To redial other recent numbers, press , highlight a number, and press  again.

When making calls off the Nationwide Sprint Network, always dial using 11 digits (1 + area code + phone number).

You can also place calls from your device by speed dialing numbers from your Contacts (page 16) and using your History listings (page 26).

Dialing Options

When you enter numbers in standby mode, you will see a variety of dialing options displayed as softkeys on the device's screen.

To initiate an option, press the corresponding softkey.

- **Keypad/Hide Keypad** (left softkey): Displays an onscreen keypad containing the following buttons: dialing keys, Contacts, Call History, Talk, and End.
- **Menu** (right softkey): Accesses the dialer's menu options and provides you the following selections:
 - **Contacts...**: Displays the Contacts entry page where you can choose to either save the current phone number as a new entry or look up an existing entry.
 - **Open Contact**: (once highlighted) displays the details for a Contact if the entered number matches a previously created entry.
 - **Open Call**: (once highlighted) displays the time of the last call and options such as *Call* and *Send text message*.

- **Save to Contacts**: Enter a seven-digit or ten-digit number (phone number and area code) and begin the process of saving the information as a new entry. See "Adding a New Contacts Entry" on page 28.
- **Send Text Message**: Send a text message to the currently entered (or selected) number.
- **Company Directory**: Displays your current company phone numbers, contacts, and email information (Microsoft Exchange accounts only).
- **Paste**: Insert copied text or data.
- **Speed Dial**: Assign the current number to an available Speed Dial location (2–99). See "Assigning Speed Dial Numbers" on page 30.

Note

Speed Dial location #1 is reserved for your voicemail.

- **Options...**: Provides access to the device's Settings page.
- **View**: Provides a filter of the onscreen display by showing entries based on three criteria: *Calls and Contacts*, *All Calls*, or *Speed Dial*.

Answering Calls

- ▶ Press  to answer an incoming call.

– or –

Press **Answer** (left softkey). (Depending on your settings, your device can also be set to automatically answer any incoming call.)

Tip

To silence an incoming call, press **Ignore** (right softkey).

Your device notifies you of incoming calls in the following ways:

- The device rings or vibrates.
- The indicator LED flashes.
- The backlight illuminates.
- The screen displays an incoming call message.

Ending a Call

- ▶ Press .

Missed Call Notification

When you do not answer an incoming call, your screen displays the Missed Call log.

To display a Missed Call entry from standby mode:

- ▶ From the Today screen, scroll through the onscreen options and touch the **phone** field.

– or –

Press **Notification** (left softkey) > **View**.

To display the Missed Call entry from the notification screen:

- ▶ From the Status Bar icons area, touch  > .
 - When an incoming call is not answered, the missed call icon () is displayed at the top of your screen.

Calling Emergency Numbers

You can place calls to 911 (dial    ) , even if your device is locked or your account is restricted.

Note

When you place an emergency call, your device automatically enters Emergency mode.

During an emergency call, press **Menu** (right softkey) to display your options. Highlight an option and press .

- **Turn Speakerphone On** to activate speakerphone mode. (If you are in speakerphone mode, the option is displayed as **Turn Speakerphone Off** to deactivate.)

Tip Press **My Phone** (left softkey) to display your phone number during an emergency call.

To exit Emergency mode:

1. Press  to end a 911 call.
2. Touch **Exit** (from the “Emergency Call Only” area above the dialer).

Note When in an emergency call, you can not use the **Mute** feature.

Enhanced 911 (E911) Information

This device features an embedded Global Positioning System (GPS) chip necessary for utilizing E911 emergency location services where available.

When you place an emergency 911 call, the GPS feature of your device seeks information to calculate your approximate location. Depending on several variables, including availability and access to satellite signals, it may take up to 30 seconds or more to determine and report your approximate location.

Important Always report your location to the 911 operator when placing an emergency call. Some designated emergency call takers, known as Public Safety Answering Points (PSAPs) may not be equipped to receive GPS location information from your device.

Saving a Phone Number

1. Enter a phone number and press **Menu** (right softkey) > **Save to Contacts**.
2. Highlight <**New Contact**> and press .

Note With the SIM card inserted, the **Outlook Contact** and **SIM Contact** menus also appear.

3. Type in the new **First name** and **Last name**.
– or –
Highlight an existing **Contacts** entry and press .

4. Touch the Number type drop-down list and select one of the following labels: *Mobile, Work, Home, Work2, Home2, Company, Pager, Car, Assistant, or Radio*.
5. Press **Save** (left softkey) or  to save the new entry to your Contacts list and exit.

After you have saved the number, your device displays the new Contacts entry. (For more information, see “Adding a New Contacts Entry” on page 28.)

Saving Phone Numbers With Pauses

You can save phone numbers with pauses for use with automated systems, such as voicemail or credit card billing numbers.

Note *Pauses and waits can not be used when dialing a number, and only be used with a Contacts entry.*

There are two types of pauses available on your device:

- ***Insert Pause*** automatically sends the next set of numbers after two seconds. (This is indicated with a *p* within the number sequence.)

- ***Insert Wait*** sends the next set of numbers after you press . (This is indicated with a *w* within the number sequence.)

Note *You can have multiple pauses in a phone number and combine pauses with waits.*

To save phone numbers with pauses:

1. Follow steps 1-3 from “Saving a Phone Number” on page 14.
2. Use your navigation key to place the cursor at the desired position within the new phone number.
3. Press **Menu** (right softkey), highlight ***Insert Pause*** or ***Insert Wait***, and press .
4. Enter additional numbers.
5. Press **Save** (left softkey) or  to save the new entry to your Contacts list and exit.

Note *When dialing a number with a wait, press  to send the next set of numbers.*

Dialing From the Contacts List

1. Press  > **Contacts**.

Shortcut

From standby mode, press **Contacts** (left softkey) to list entries (when available).

2. Highlight an entry and press  to dial the entry's default phone number.

– or –

To dial another number from the entry, highlight the name and press , and then highlight a number and press .

Speed Dialing

You can store up to 98 numbers in your device's speed dial memory. Dial speed dial entries using one keypress for locations 2–9 or two keypresses for locations 10–99. See “Assigning Speed Dial Numbers” on page 30.

To use One-Touch Dialing for speed dial locations 2–9:

- Press and hold the appropriate key for approximately two seconds. The display confirms that you have dialed the number when it shows “Dialing...”.

To use Two-Touch Dialing for speed dial locations 10–99:

1. Press the first digit.
2. Press and hold the second digit for approximately two seconds. The display confirms that you have dialed the number when it shows “Dialing...”.

Note

Speed dialing is not available when you are roaming; when you are roaming off the Nationwide Sprint Network, you must always dial using eleven digits (1 + area code + number).

Entering Text

Text Entry Overview

Your device's keyboard provides a convenient way to enter letters, numbers, and symbols whenever you are prompted to enter text (for example, when adding a Contacts entry or when using email and text messaging). Using your device's keyboard is just like using any standard computer keyboard.

The following keys perform special functions when entering text:

| | |
|---|---|
|  | FN: Allows you to enter the numbers or characters displayed at the top of the QWERTY keys. Examples: \$, @, #, !. (Press twice to turn Fn lock on.) |
|  | Caps: Changes the text input mode among Upper/Lower/Mixed case modes, like the Shift key on a computer keyboard. (Press twice to turn Caps lock on.) |

| | |
|---|---|
|  | Sym: Launches an onscreen Symbols page. Choose from an extensive list of symbols and other character sets. |
|  | Space: Inserts a space. |
|  | Enter: Moves the insertion point to the next line in a message. |
|  | Delete: Deletes the previous character, similar to the backspace key on a computer keyboard. |

Using the Keyboard

To enter letters:

- Press the desired letter key.
 - Press  to capitalize the next letter.
 - Press  to erase the previous letter.

Note During text entry, a list of possible word choices is displayed. If your desired word is listed, touch the entry from the list to insert the selected word into your message.

To enter numbers and punctuation:

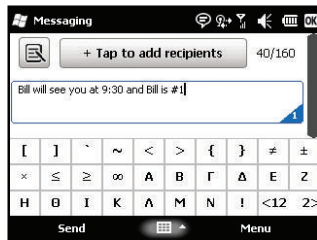

- ▶ Press **Fn** and then press the key with the desired character displayed on top.
 - For example, to enter 9, press **Fn** and then press **9**;
 - To enter &, press **Fn** and then press **&**.
 - To enter only the top row of characters, double press **Fn** to fix all consecutive characters.

Entering Symbols, Emoticons and My Messages

Symbols, emoticons, and preset messages are entered by accessing onscreen menus and touching the desired item.

To enter symbols:

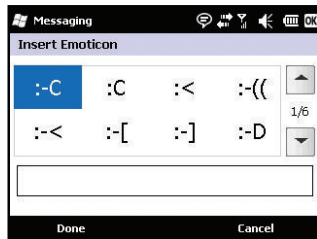

- ▶ With the cursor in the desired location, press **Sym** and touch the onscreen key of the desired symbol to insert it. (To display additional symbols, touch the page number navigation at the bottom right of the symbols list.)

Note

You can exit from the Symbols page by pressing any keyboard key.

To enter emoticons:

1. With the cursor in the desired location, press **Menu** (right softkey) > **Insert** > **Emoticons**.
2. From the Emoticon page, touch an icon to insert it into your message. Touch the up and down arrows on the right side to display additional emoticons.
3. Touch **Done** (left softkey) to insert your selected icons.

To enter preset messages:

1. With the cursor in the desired location, press **Menu** (right softkey) > **Insert** > **My Messages**.
2. Touch an existing entry from the available list and touch **Select** (left softkey).

Note *My Messages (preset messages) make composing text messages easier by allowing you to enter quick messages, such as "Where are you?" "Call me," or a customized message of your own.*

1B. Settings

- ◆ *Sound Settings (page 20)*
- ◆ *Display Settings (page 22)*
- ◆ *Location Settings (page 23)*
- ◆ *Messaging Settings (page 23)*
- ◆ *Airplane Mode (page 24)*
- ◆ *Security Settings (page 24)*

Sound Settings

Ringer Types

Ringer types help you identify incoming calls and messages. You can assign ringer types to individual Contacts entries, types of calls, and types of messages.

- **Ring Tone:** assigns ring tones for incoming calls.

- **Notifications:** assigns ring tones for categories such as new email, new text messages, and new voice messages.
- **System Sound:** assigns ring tones for system categories such as Exclamations, Questions, and Warnings.
- **Keypad Tone:** assigns a tone for use with keypad presses.
- **Call Alert:** assigns ring tones for call-specific activities such as minute warning, connection, and signal fade.

Selecting Ringer Types

Your device provides a variety of ringer options that allow you to customize your ring and volume settings. These options allow you to identify incoming calls and events by the ring.

1. Press  > **Settings** > **Sounds & Notifications**.
2. Touch the **Notifications** tab and touch the **Event** field.

3. Select an event, such as *Phone: Incoming call* or *Messaging: New text message*.
4. Select a *Ring type* category or *Play sound* box, and then use your navigation key to scroll through the available ring tones.
 - Touch  to hear the selection.
 - Touch  to silence the playback.
 - Select other available options, if available.
5. Once you have chosen a ringer, press  to assign it.

Vibrate and Ring Options

To set your device to vibrate instead of making any sounds:

- ▶ Press the volume button down in standby mode until **Vibrate** is selected and  is displayed at the top of the screen.

To configure your device ringer:

1. Press  > **Settings** > **Personal** > **Phone**.
2. Touch the *Ring Type* drop-down field.

3. Select a ring or vibrate type by using either your navigation key or touching the selection onscreen.
 - Choose from: *Ring*, *Increasing ring*, *Ring once*, *Vibrate*, *Vibrate and ring*, *Vibrate then ring*, or *None*.
4. Press  to assign the new setting.

Silence All

The Silence All (sound off) option allows you to mute all sounds without turning your device off.

To activate Silence All:

1. From the status bar, touch the volume icon.
2. Touch **Off** and  is displayed at the top of the screen.

To deactivate Silence All:

- ▶ Press the volume button up repeatedly to select a volume level.

Display Settings

Changing the Screen Backlight

Select how long the display screen remains backlit after a period of inactivity.

1. Press  > **Settings** > **System** > **Backlight**.
2. Touch the **Battery Power** tab.
3. Touch a box to activate a feature and then alter its corresponding field.
 - **Turn off backlight if device is not used for** lets you conserve battery power by selecting an idle interval after which the backlight dims.
 - **Turn on backlight when a button is pressed or the screen is tapped** turn the backlight brighter after it dims, once activity is detected.
4. Press  to assign the new setting.

Changing the Keyboard Backlight

Select how long the keyboard remains backlit after you press any key.

1. Press  > **Settings** > **System** > **Backlight**.
2. Touch the **Keyboard** tab.
3. Select a time setting and touch **OK**.

Note

Long backlight settings reduce the battery's talk and standby times.

Changing the Brightness

Adjust your screen's brightness to suit your surroundings.

1. Press  > **Settings** > **System** > **Backlight**.
2. Touch the **Brightness** tab.
3. Touch along the slider to adjust the screen brightness.
 - Selecting **Auto Adjustment by Surrounding illuminance** adjusts the brightness to match your current surrounding.
4. Press  to assign the new setting.

Location Settings

Your device is equipped with a Location feature for use in connection with location-based services.

The Location feature allows the network to detect your position. Turning Location off will hide your location from everyone except 911.

Note

Turning Location on will allow the network to detect your position using GPS technology, making some Sprint applications and services easier to use. Turning Location off will disable the GPS location function for all purposes except 911, but will not hide your general location based on the cell site serving your call. No application or service may use your location without your request or permission. GPS-enhanced 911 is not available in all areas.

To enable your device's Location feature:

1. Press  > **Settings** > **Personal** > **Phone**.
2. Touch the **Services** tab.
3. Scroll down the list, touch **Location** and tap the onscreen **Change Setting** button.

4. Select **Location on** or **911 Only**.

- **Location on** allows the network to detect your position using GPS technology. This makes some Sprint applications and services easier to use.
- **911 Only** turns off all GPS functionality except that used by 911 services. Only general location can then be obtained.

5. Press  to assign the new setting.

Messaging Settings

Messaging settings allow you to decide how you would like to be notified of new messages, create a signature with each sent message, and create your own preset messages.

New Message Settings

1. Press  > **Text** > **Menu** (right softkey) > **New**.
2. Press **Menu** (right softkey) > **Options**.

3. Scroll through the Text message options page and select from the following:
 - **Use Callback Number** (On/Off) allows you to set the callback number for the recipient to view when receiving a text message.
 - **Priority** allows you to assign a default urgency status to outgoing text messages.
4. Press  to assign the new setting.

Airplane Mode

Airplane Mode (deactivation of the device's phone antenna) allows you to use many of your device's features, such as Games, Notepad, and Voice Memos, when you are in an airplane or in any other area where making or receiving calls or data is prohibited. When you set your device to Airplane Mode, it cannot send or receive any calls or access online information.

1. Press and hold  for approximately 3 seconds.
2. Confirm  and  appear at the top-right of the screen.
 - Press and hold  to reactivate the device's phone antenna.

Security Settings

Your Device's Lock Feature

Locking Your Device

When your device is locked, you can only receive incoming calls, make calls to 911, or special numbers.

1. Press  from the *Today* screen.
2. Press **Lock** (left softkey).

Unlocking Your Device

- Touch and drag the onscreen **Lock** button to either the left or right of the screen to reveal the Today screen.

Resetting Your Device

Resetting the device restores all the factory defaults, including the ringer types and display settings.

WARNING

Resetting your device deletes all files that you have previously downloaded.

1. Press  > **Settings** > **Personal** > **Phone**.
2. Touch the **Security** tab.
3. Touch **Clear All Data**.

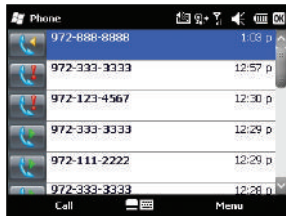

4. Enter your password (lock code) using your keyboard.
5. Touch **OK** to complete the process. (If prompted with a confirmation message, touch **Yes** to confirm the clearing process).

1C. History

- ◆ *Viewing History (page 26)*
- ◆ *Making a Call From History (page 27)*
- ◆ *Saving a Number From History (page 27)*

Viewing History

History is a list of the last 300 phone numbers (or Contacts entries) for calls you placed (10 per entry), accepted, or missed. History makes redialing a number fast and easy. It is continually updated as your device automatically adds new numbers to the beginning of the list and removes the oldest entries from the bottom of the list.

Each entry contains the phone number (if it is available) and Contacts entry name (if the number is in your Contacts). When you view the numbers in this list, an icon to the left of the number indicates the call type:

| | |
|--|--|
| | Dialed: Indicates all outgoing calls made from your device. |
| | Received: Indicates any received calls that were answered. |
| | Missed: Indicates any missed calls. These are routed to your voicemail. |

To view History:

1. Press  and then touch **History** ().
2. Highlight an entry and press .

Note History records only calls that occur while the device is turned on. If a call is received while your device is turned off, it will not be included in history.

If you return a call from the voicemail menu, it will be included in your device's history.

Making a Call From History

1. Press  and then touch **History** ().
2. Highlight an entry and press .

Note You cannot make calls from History to entries identified as **Blocked ID**, **Unknown**, **Restricted** or **Private**.

Saving a Number From History

1. Press  > **History** ().
2. Highlight an entry and press **Menu** (right softkey) > **Save to Contacts**.

Note You can also select from Outlook Contact, and SIM Contact (when available).

3. Type in the new **First name** and **Last name**.
4. Touch the Number type drop-down list and select a label: **Mobile**, **Work**, **Home**, **Work2**, **Home2**, **Company**, **Pager**, **Car**, **Assistant**, or **Radio**.
5. Press **Save** (left softkey) or  to save the new entry to your Contacts list and exit.

After you have saved the number, your device displays the new Contacts entry. (See “Contacts Entry Options” on page 29.)

Note You cannot save phone numbers already in your Contacts or from calls identified as **Blocked ID**, **Restricted** or **Private**.

1D. Contacts

- ♦ *Adding a New Contacts Entry (page 28)*
- ♦ *Saving a Phone Number (page 29)*
- ♦ *Contacts Entry Options (page 29)*
- ♦ *Assigning Speed Dial Numbers (page 30)*
- ♦ *Selecting a Ringer Type for an Entry (page 30)*

Adding a New Contacts Entry

The number of Contacts entries you can store in your device is limited only by available memory space. Each entry can contain up to nine phone numbers, three email addresses, and one Web address. Contacts names may contain up to 70 characters.

1. Press  > **Contacts** > **New** (left softkey) > **Outlook Contact**.

Shortcut

Enter the phone number in standby mode and press **Menu** (right softkey) > **Save to Contacts**. Proceed with “Saving a Phone Number” on page 29.

2. Enter a name for the new entry and press the navigation key down.
3. Enter the phone number(s) for the entry.
4. Press  to store the new Contacts entry.

After saving the number, your device displays the new entry. (See “Contacts Entry Options” on page 29.)

Tip

ICE – In Case of Emergency

To make it easier for emergency personnel to identify important contacts, you can list your local emergency contacts under “ICE” in your device’s Contacts list. For example, if your mother is your primary emergency contact, list her as “ICE–Mom” in your Contacts. To list more than one emergency contact, use “ICE1–___,” “ICE2–___,” etc.

Saving a Phone Number

To save a new number from standby mode:

1. Enter a phone number and press **Menu** (right softkey) > **Save to Contacts**.
2. Highlight <**New Contact**> and press .

Note

You can also select from Outlook Contact, SIM Contact (when available), and Windows Live.

3. Type in the new **First name** and **Last name**.
4. Touch the Number type drop-down list and select a label: **Mobile**, **Work**, **Home**, **Work2**, **Home2**, **Company**, **Pager**, **Car**, **Assistant**, or **Radio**.
5. Press **Save** (left softkey) or  to save the new entry to your Contacts list and exit.

Contacts Entry Options

To display a Contacts entry:

1. Press  > **Contacts**.
2. Highlight an entry and press .

To access a Contacts entry's options:

1. Highlight an entry and press **Menu** (right softkey) > **Edit**.
2. Touch or highlight a category (such as Name, Picture, or E-mail) to add or edit the information.
3. Press  to store the new Contacts entry.

Note

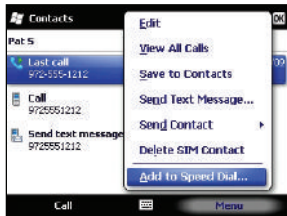

If your old phone has Bluetooth capability, you can transfer Contacts from it to your Samsung Intrepid. See "Sending Data via Bluetooth" on page 52.

Assigning Speed Dial Numbers

Your device can store up to 98 phone numbers in speed dial locations (2-99). (For details on how to make calls using speed dial numbers, see “Speed Dialing” on page 16.)

To assign a speed dial number to an existing phone number:

1. Press  > **Contacts**, highlight an entry, and then press .
2. Highlight a number and press **Menu** (right softkey) > **Add to Speed Dial...**
3. Touch the **Location** field and use the up/down arrows to select an available speed dial location (<Available>).
4. Press  to save the new location.

To view your current speed dial assignments:

- Press  and then touch **Menu** (right softkey) > **Speed Dial**.

Selecting a Ringer Type for an Entry

Assign a ringer type to a Contacts entry so you can identify the caller by the ringer type. (See “Ringer Types” on page 20.)

1. Display a Contacts entry and press **Menu** (right softkey) > **Edit**.
2. Touch the **Ring tone** field to display a list of available ring tones.
3. Touch a ringer from the list to assign it.
4. Press  to save the new ringer type.

1E. Calendar and Tools

- ◆ *Calendar (page 31)*
- ◆ *Alarm Clock (page 32)*
- ◆ *Notepad (page 33)*
- ◆ *Using Tasks (page 33)*
- ◆ *Office Mobile (page 34)*

- ◆ *Updating Your Device (page 36)*

Calendar

Adding an Event to the Calendar

Your Calendar helps you organize your time and reminds you of important events.

1. Press  > *Calendar*.
2. Touch the day to which you would like to add an event and press *Menu* (right softkey) > *New Appointment*.
 - Press the left softkey to cycle between *Week*, *Month*, *Year*, *Agenda*, and *Day* (full-screen table calendar view).

– or –

From the Today screen, touch the *calendar* field, scroll left or right, and touch *New Appointment*.

3. Enter a title for the event in the *Subject* field.
4. Select a Start/End time and date for the event by touching the corresponding fields, and assigning information from either the onscreen calendar or drop-down lists.

5. Touch the **All Day** field to choose either **No** or **Yes** (assigning this as an All Day event).
6. Select a recurrence cycle for the event by touching the **Occurs** field and selecting an option.
7. Select an alarm time by touching the **Reminder** field and selecting either **None** or **Remind me**.
 - If you select **Remind me**, you can also touch the time fields below this option to configure the reminder time for this event.
8. Select a category for the event by touching the **Categories** field and selecting an option.
9. Select the number of Attendees for the event by touching the **Attendees** field (default is **No attendees...**).
 - Touch to add either a **Required Attendee** or an **Optional Attendee** and press  or **Done** (left softkey).
10. Select a status category for the event by touching the **Status** field and selecting an option.
11. Select a sensitivity for the event by touching the **Sensitivity** field and selecting an option.

12. Touch the **Notes** tab and use your keyboard to enter an optional note.
13. Press  to save the event and return to the calendar page.

Alarm Clock

Your device comes with a built-in alarm clock that has multiple alarm capabilities.

Note

The Alarm Clock (Start > Settings > Clock & Alarms > Alarms) and Wake-up Alarm (Start > Alarm) are two separate applications.

1. Press  > **Settings** > **Clocks & Alarms**.
2. Touch the **Alarms** tab. There are three available alarms to choose from on this page.
3. Turn an alarm **On** or **Off** by touching the checkbox next to the alarms. An active alarm is indicated by a checkmark.
4. Touch the **<Description>** field to edit the alarm title and enter a new title.

5. Select those days for which this alarm is active. Selected days appear with a grey box.
6. Select a time for the alarm by touching the time field. This field is indicated with an alarm icon.
 - Touch either the hour or minutes field and then make adjustments to the time entry by either using the up/down arrows or touching the onscreen clock.
 - Save this new time by pressing .
7. Press  to save and exit.

Notepad

Your device comes with a notepad that you can use to compose and store reminders and notes to help keep you organized.

To compose a text note:

1. Press  > **Notes**.
2. Press **New** (left softkey).
3. Type your note and press  to save and exit.

To compose a voice note:

1. Press  > **Notes**.
2. Press **New** (left softkey) > **Menu** (right softkey) > **View Recording Toolbar**. You will see a voice recorder bar at the bottom of the screen.
3. Touch the red record icon and wait for the beep to begin recording your short voice note.
 - Review your recorded voice note by pressing the play icon.
4. Press  to save and exit.

Using Tasks

Your device can keep track of your to-do list items (tasks).

To create a new task:

1. Press  > **Tasks** > **Menu** (right softkey) > **New Task**.
2. Enter a title for the event in the **Subject** field.
3. Assign a priority to the task by touching the **Priority** field (**High**, **Normal** or **Low**).

4. Assign a completion status to the task by touching the **Status** field (*Not Completed* or *Completed*).
5. Assign a **Starts** date and **Due** date for the task by touching the appropriate field and using the onscreen calendar to enter the new dates.
6. Select a recurrence cycle for the task by touching the **Occurs** field and selecting an option.
7. Select an alarm time by touching the **Reminder** field and selecting either *None* or *Remind me*.
 - If you select *Remind me*, you can touch the date and time fields below this option to configure the reminder time for this task.
8. Select a category for the event by touching the **Categories** field and selecting an option.
9. Select a sensitivity for the task by touching the **Sensitivity** field and selecting an option.
10. Touch the **Notes** tab and use your keyboard to enter an optional note.
11. Press  to save the task and return to the previous page.

All new tasks are saved to the task list. You can organize your tasks based on priority level, subject, start date, due date, status, or other related criteria.

Office Mobile

Intrepid is loaded with familiar Microsoft® Office Mobile applications such as Excel Mobile, OneNote mobile, PowerPoint Mobile, and Word Mobile. This section will describe the usage of Excel Mobile and Word Mobile.

Excel Mobile

Excel Mobile works with Microsoft Excel on your computer to give you easy access to copies of your workbooks. You can create new workbooks or copy workbooks from your computer to your device. Synchronize workbooks between your computer and your device (via ActiveSync or Windows Mobile Device Center) to ensure that you have the most up-to-date content in both locations. Excel Mobile also provides fundamental spreadsheet tools, such as formulas, functions, sorting, and filtering.

To create a new Excel workbook:

1. Press  > **Office Mobile** > **Excel Mobile**.

Note If this is your first workbook, a blank workbook is displayed where you can begin entering your new information.

2. Touch **New** (left softkey) to create a new Workbook.
3. Use your keyboard to enter data into the desired fields.
 - To enter numbers or punctuation, remember to use the  key. See “Using the Keyboard” on page 17.
 - To access additional features such as symbols, format options, and other tools, touch **Menu** (right softkey).
4. Once you are finished, touch **Menu** (right softkey) > **File** > **Save As...**
5. Enter a file **Name**, **Folder** location, file **Type**, and file **Location**.
 - Touch **Save** to store the new file.
6. Touch  to return to the Excel Mobile file access screen.

Word Mobile

Word Mobile works with the Microsoft Word already on your computer to give you easy access to copies of your documents while on the go. You can create new documents or copy existing ones from your computer to your device. Synchronize the documents between your computer and your device (via ActiveSync or Windows Mobile Device Center) to ensure you have the most up-to-date content in both locations. Use Word Mobile to create documents, such as letters, meeting minutes, and trip reports.

To create a new Word document:

1. Press  > **Office Mobile** > **Word Mobile**.

Note If there are no documents on this device, a new document automatically displays.

2. Touch **New** (left softkey) to create a new document.
3. Use your keyboard to enter text into your new document.
 - For access to additional features such as format options and other tools, touch **Menu** (right softkey).

4. Once you are finished, touch **Menu** (right softkey) > **File > Save As...**
5. Enter a file **Name**, **Folder** location, file **Type**, and file **Location**.
 - Touch **Save** to store the new file.
6. Touch .

To access the options for Word:

1. Press  > **Office Mobile > Word Mobile**.
2. From the Word Mobile access screen, touch **Menu** (right softkey) > **Options...** Choose from any of the following options:
 - **Default template** -selects a document format as the default document for any consecutive new documents.
 - **Save to** - selects the default storage location of new word documents. Choose from: Main memory or Storage Card.
 - **Display in list view** - displays Word files, Rich Text Files, Plain Text Files, and All Known File Types.
3. Touch .

Calculator

Your device comes with a built-in calculator.

1. Press  > **Calculator**.
2. Enter numbers using your keyboard or touching an onscreen key.
 - Press  to enter decimal points.
3. Press  for the total.

Updating Your Device

This option allows you to download and update the software in your device automatically. Only the internal software version is updated; no Contacts entries or other stored information will be deleted.

To download software updates to your device:

1. Press  > **Settings > System > Update Firmware**.
2. Follow the onscreen instructions. (Your device automatically downloads and installs any available updates.)

1F. microSD Card

- ◆ *Using a microSD Card (page 37)*
- ◆ *microSD Card Memory (page 39)*
- ◆ *microSD Folders (page 39)*
- ◆ *Connecting Your Device to Your Computer (page 40)*

Using a microSD Card

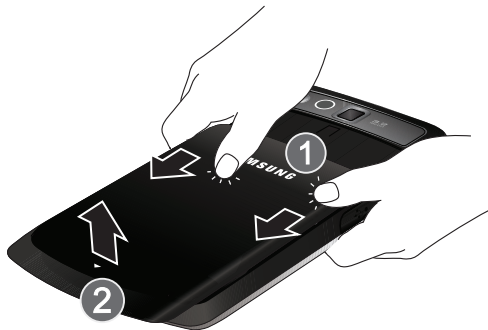

microSD Cards

Your device supports the use of an optional microSD memory card (sold separately) to expand the device's available memory space.

Note Memory cards with over 16GB of storage capacity have not been tested on this device.

Inserting a microSD Card

1. Remove the battery cover.
 - Press down with thumbs as indicated.
 - While applying pressure, slide cover away from the camera lens (as shown).

Note You must remove the battery before inserting a microSD card into its slot.

2. Grasp the bottom left and right sides of the battery and lift it out of the compartment.

3. With the gold contact pins facing downward, carefully insert the microSD card into the opening and firmly push it in.

WARNING

Do not forcibly insert the card too far into the slot as this can damage the device's connector and avoid proper contact.

Correct

Incorrect

Note

Be sure to use only recommended microSD cards (up to 16GB). Using non-recommended microSD cards could cause data loss and damage your device.

Removing the microSD Card

1. Remove the battery (steps 1 and 2 from “Inserting a microSD Card” on page 37.)
2. Locate the groove along the rim of the microSD card and use it to carefully pull the card out of the slot.
3. Replace the battery and battery cover.

Note

You can easily damage a microSD card and its adapter by improper operation. Please be careful when inserting, removing, or handling them.

DO NOT remove a microSD card while files are being accessed or transferred. Doing so will result in loss or damage of data.

Make sure your battery is fully charged before using the microSD card. Your data may become damaged or unusable if the battery runs out while using the microSD card.

microSD Card Memory

Viewing Memory in the microSD Card

1. Press  > **Settings** > **System** > **Memory**.
2. Touch the **Storage Card** tab.

microSD Folders

Displaying Your microSD Folders

All the files stored in your microSD are accessible through your microSD card folders.

1. Press  > **File Explorer**.
2. From the upper-left area of the screen, touch the <Location> arrow to reveal a drop-down list.
 - Locations include: **My Device** or **Storage Card**.
3. Touch **Storage Card** to display the files and folders stored on your microSD card.
 - To display or play a file, touch the file name.

Creating Folders in the microSD Card

The following steps allow you to create folders in your microSD card using only the File Manager.

1. Press  > **File Explorer**.
2. From the upper-left area of the screen, touch the <Location> arrow.
3. Touch **Storage Card** to display the contents of the microSD card.
4. Press **Menu** (right softkey) > **New Folder**.
5. Enter a name for the new folder. (See “Entering Text” on page 17.)
6. Press  to save the new folder onto the card.

Connecting Your Device to Your Computer

Note

Before connecting the USB cable, visit www.sprint.com/downloads to find and download compatible USB drivers.

1. With the device turned off, plug one end of the supplied USB cable into the device's charger/accessory jack.
2. Connect the other end of the cable to your computer and turn the device on.

Note

You will not be able to make or receive calls on your device while the USB connection is being established. Once the connection is complete, you can make or receive calls.

To remove the connection:

- ▶ When you have finished transferring data, click the USB device icon on your computer's taskbar, and follow the onscreen instructions to safely unplug the USB cable.

Note For explanation on use of your device with the sync application, see "Synchronizing With Your Computer" on page 42.

Important Connection Information

- No driver installation is required for Windows 2000/ME/XP/Vista users. If you use Windows 98/98SE, you have to download and install the USB Mass Storage Driver from the Sprint website at www.sprint.com.
- To avoid loss of data, DO NOT remove the USB cable, the microSD card, or the battery while files are being accessed or transferred.

- DO NOT use your computer to change or edit folder or file names on the microSD card, and do not attempt to transfer large amounts of data from the computer to the microSD card. Doing so may cause the microSD card to fail.
- DO NOT turn off or restart your computer, or put it into standby mode, while using a mass storage device. Doing so will result in loss or damage of data.
- If you connect a mass storage device to a peripheral device, your device may not work properly.

1G. Synchronizing With Your Computer

- ◆ *Installing the Sync Program (page 42)*
- ◆ *Running the Sync Program (page 43)*
- ◆ *Synchronization Overview (page 43)*
- ◆ *Setting Up Windows Media Player Sync (page 43)*

Your device features a built-in synchronization utility (ActiveSync® for Windows XP, Windows Mobile Device Center for Windows Vista) that lets you synchronize data between your computer and your device. This software helps keep Contacts, Calendar, Tasks, or Inbox data up-to-date.

For additional help with synchronization, visit:

www.windowsmobile.com/getstarted from your computer's Web browser.

Installing the Sync Program

1. Download the latest version of ActiveSync or Windows Mobile Device Center online at www.windowsmobile.com/getstarted.
2. From the **Step 2** area of the page, click an application to begin installation.
 - **ActiveSync** for Windows XP or earlier.
 - **Windows Mobile Device Center** for Windows Vista.
3. Launch the setup program and follow the onscreen instructions to install and configure your sync program.
 - During setup, select the information you want to synchronize, such as Contacts, Calendar, E-Mail, Files, or Media.

Note

The setup program will detect any existing or previous versions of the sync programs on your computer. Follow the instructions to repair or replace any existing installations.

Running the Sync Program

Once ActiveSync or Windows Mobile Device Center is installed, launching it is as simple as connecting your device to your computer.

- ▶ Insert the small end of the supplied USB cable to your device's charger/accessory jack and connect the other end to an available USB port on your computer.
 - Synchronization will begin automatically the first time you connect your device to your computer.
 - All selected synchronization items will be copied from your computer to your device. Windows Explorer will create a shortcut to the Mobile drive.

Synchronization Overview

Once you begin the synchronization process (by connecting your device to your computer) the ActiveSync or Windows Mobile Device Center window should automatically open.

Your device will remain connected to the computer after synchronization is complete. If any selected content is changed on your computer (new email, photos, playlist updates, etc.) the program automatically resyncs the information on the device. You can open the device's file directory within the application by:

- Clicking the *Explore* tab or *Tools > Explore Device* (ActiveSync).
- Clicking *File Management > Browse the contents of your device* (Windows Mobile Device Center).

You can then copy files quickly and easily from the device to the computer, or vice versa.

Setting Up Windows Media Player Sync

If you choose to synchronize multimedia files (pictures, video, and music), you will need to set up a sync partnership between your device and your computer's Windows Media Player.

It is recommended that you have the latest version of Windows Media Player installed (at the time of print it was version 11). (You can verify you have the latest version by clicking *Help > Check for Updates...* from the Media Player menu.)

1. Verify **Media** was selected when you set your sync options:
 - **ActiveSync** - Click *Tools > Options* and ensure **Media** is checked.
 - **Windows Mobile Device Center** - Click *Mobile Device Settings > Change content sync settings*.
2. From within the **Synchronized items** field (adjacent to the Media entry) click the **Setup must be completed** link.
3. From the Media Synchronization pop-up dialog box, click **Yes** to begin the setup process.
 - Windows Media Player is launched and your device appears within the left pane of the application.

Note

*If your device contains an internal microSD card, both the built-in device storage and internal microSD card (listed as **Storage Card**) are listed as two separate device entries on the left pane.*

4. Click on the **Sync** tab and click on the entry within the left pane to launch the partnership process.
– or –

Click the **Click here** link from within the Windows Media Player screen to begin the setup.

- If the Device Setup screen does not appear, right-click on the device icon (left pane) and select **Setup Sync...**
 - Enter a new name for either the built-in device storage location or for the Storage Card (microSD).
5. Click **Finish** to complete the device setup within Windows Media Player.

1H. Camera

- ◆ *Taking Pictures (page 45)*
- ◆ *Recording Videos (page 47)*

Note Images and video can be stored in either *My Device* (built-in memory) or *Storage Card* (microSD card). The default storage location on the device is *My Device/My Document/My Pictures/DCIM*.

Taking Pictures

Taking pictures with your device's built-in camera is as simple as choosing a subject, pointing the lens, and pressing a button.

1. Press  to activate the camera. (Additional camera options are available through the camera mode Options menu.)
2. Using the display screen as a viewfinder, aim the camera lens at your subject.

3. Press  or  until the shutter sounds. (The picture will automatically be saved in your selected storage area.)

- You can choose to store pictures either in your device's internal storage (*My Device*) or within the DCIM folder on your microSD card.

4. Take a few minutes to get familiarized with the layout of the Camera screen.

Camera Mode Functions

When the device is in camera mode, the following options are displayed onscreen along with the current image.

- **Mode** () to toggle the mode between *Camera* and *Camcorder*.
- **Shooting Mode** () to select an option from the following:
 - **Single** to take a single shot.
 - **Smile** to take a photo where the camera focuses on the subject and snaps the photograph once it detects a smile.
 - **Continuous** to take multiple shots.
 - **Mosaic** to take up to 4 images (2x2, 1x2, or 2x1) that are then combined into a single picture. Resolution is reduced to 640x480.
 - **Panorama** to take up to six images that are then combined into a single panoramic picture. Press  to take your first picture.

- The center of each panoramic area is indicated with a yellow square, that must be centered within the white square on the display before the image is taken. Resolution is reduced to 640x480.

- **Shutter Speed** (**NONE**) to select the camera's shutter speed based on several presets (*None, Portrait, Landscape, Sports, Party, Beach, Sunset, Dawn, Fall, Night, Against Light, Firework, Text* or *Candle*).
- **Resolution** () to select a picture's resolution.
- **Settings** () to select *WhiteBalance, Effects, ISO, Metering, Image Quality, Storage, etc..*
- **Exit** () to exit the current mode.
- **Auto Focus** () to focus on the center of the viewfinder. Modes are *Auto Focus* or *Macro*.
- **Selftimer** () to activate the camera's timer.
- **Brightness** () to adjust the image brightness level. Press the onscreen slider left (to decrease) or right (to increase) the setting. (The default setting is 0.0.)
- **Album** () to review previously taken pictures and videos.

Using the Album Screen

1. Once a picture or video has been taken, touch  to display the **Album** screen.
2. Press the navigation key left or right to display a picture or video, and then touch an option:
 - **Return** () to return to the camera or camcorder.
 - **Memo/Detail** () to either annotate the current image or view the details of the image.
 - **Magnify** () to use the onscreen slider to zoom in or out on the current image (not available for videos).
 - **Send** () to send the picture or video via MMS, Email, or Bluetooth. Follow the onscreen instructions to complete the message.
 - **Assign** () to assign the current image as either the Caller ID image for a specific Contacts entry or as the Today background wallpaper (not available for videos).
 - Touch **Wall Paper** and then touch  to assign as wallpaper.

- Touch **Caller ID** >  and then select a contact to assign the picture to the contact.
- Touch  to return to the previous screen.
- **Erase** () to delete the currently displayed picture or video.

Note

*Pictures can also be assigned to contacts from the **Contacts** and **Pictures & Videos** menus.*

Tip

Touch  from any screen to return to the previous screen.

Recording Videos

In addition to taking pictures, you can record, view, and send videos with your device's built-in video camera.

1. Press  to activate the camera mode.
2. Touch  to activate the camcorder mode.
3. Using the device's display screen as a viewfinder, aim the lens at your subject.
4. Press  to begin recording.

5. Touch **Cancel** (left softkey), pause () , or stop (right softkey) to stop recording. (The video will automatically be saved to the default folder.)
6. Touch  and select one of the following:
 - **Return** () to return to the camcorder mode to shoot additional videos.
 - **Memo/Detail** () to either annotate the current video or view the details of the video file.
 - **Detail** provides information about the video such as File name and Resolution.
 - Touch  to return to the previous page.
 - **Send Video** () to send the video file via either MMS, email, or Bluetooth. (See “Sending Data via Bluetooth” on page 52.) Follow the onscreen instructions to complete the delivery.
 - **Erase** to delete the video you just took.

Camcorder Mode Functions

When the device is in camcorder mode, the following options are displayed onscreen along with the current video.

- **Mode** () to toggle the mode between *Camcorder* and *Camera*.
- **Recording Mode** () to select an option from the following:
 - **Normal** to record video using any available settings and resolution. These are only limited by available storage space.
 - **MMS** to record a video to be sent in an MMS message. The resolution and length of this video type is restricted.
- **Resolution** () to select a video's file size (320x240 or 176x144).
- **Settings** () to select *WhiteBalance*, *Effects*, *Video Quality*, *Metering*, *GuideLine*, etc.
- **Exit** () to exit the current mode.
- **Selftimer** () to activate the camcorder's timer.
- **Brightness** () to adjust the video brightness level. Press the onscreen slider left (to decrease) or right (to increase) the setting. (The default setting is 0.0.)
- **Album** () to review previously taken pictures and videos.

11. Bluetooth

- ◆ *Turning Bluetooth On and Off (page 49)*
- ◆ *Using the Bluetooth Settings Menu (page 50)*
- ◆ *Pairing Bluetooth Devices (page 51)*
- ◆ *Sending Data via Bluetooth (page 52)*

About Bluetooth

Bluetooth is a short-range communications technology that allows you to connect wirelessly to a number of Bluetooth devices, such as headsets and hands-free car kits, and Bluetooth-enabled handhelds, computers, printers, and wireless phones. The Bluetooth communication range is usually up to approximately 30 feet.

Turning Bluetooth On and Off

By default, your device's Bluetooth feature is turned off. Making your device Bluetooth-visible makes it "discoverable" by other in-range Bluetooth devices. Bluetooth management is done via the Wireless Manager.

To access the Wireless Manager:

- Press .

Note

Do not press and hold this key for too long as it will launch the Task Manager application.

To turn Bluetooth on:

1. From the **Wireless Manager**, touch the **Bluetooth** field to enable the feature.
 - When Bluetooth is inactive, the Bluetooth field displays the  icon.
 - When Bluetooth is active, the  icon is displayed on both this field and on the screen.
2. Press **Done** (left softkey) to exit and return to the Today screen.

To turn *Bluetooth* off:

1. From the *Wireless Manager*, touch the *Bluetooth* field again to disable the feature.
2. Press *Done* (left softkey) to exit and return to the Today screen.

Bluetooth Status Indicators

The following icons show your Bluetooth connection status at a glance:

– Bluetooth is active (default status)

– Bluetooth is active and externally visible

Using the Bluetooth Settings Menu

The *Bluetooth* menu allows you to set up many of the characteristics of your device's Bluetooth service.

To access the *Bluetooth Settings* menu:

1. From the *Wireless Manager*, press *Menu* (right softkey) > *Bluetooth Settings*.

2. Set your Bluetooth options.

- Touch the *Mode* tab and touch the *Make this device visible to other devices* field to set your Bluetooth visibility. If disabled, your device can not be detected by other compatible devices (also known as “Hidden”).
- Touch the *Visible Timeout* tab and select a timeout option for your device's visibility.

Enabling Smart Pairing

Bluetooth Smart Pairing simplifies the process of pairing with other Bluetooth-capable devices using PIN codes for secured pairing. The simplified process uses a set of pre-defined common pairing codes to speed up the pairing process. The commonly used PIN codes are: *0000* and *8888*.

1. From the *Wireless Manager*, press *Menu* (right softkey) > *Bluetooth Settings*.
2. Touch the *Smart Pairing* tab and tap the *Enable smart pairing* field to enable the feature.

Note

To enter a unique number, place a checkmark on the *Add own PIN code* field.

3. Press  to store this change and return to the previous page.

To add your own customized PIN:

1. From the **Wireless Manager**, press **Menu** (right softkey) > **Bluetooth Settings**.
2. Touch the **Smart Pairing** tab and tap the **Add own PIN code** field.
3. Touch the adjacent empty field and enter a new numeric PIN code. (Remember to use the  key to enter numbers.)
4. Press  to store this change and return to the previous page.

Pairing Bluetooth Devices

Paired Devices

The Bluetooth pairing process allows you to establish trusted connections between your device and another Bluetooth device. When devices are paired, a passkey is shared between devices, allowing for fast, secure

connections while bypassing the discovery and authentication process.

Note

To pair Bluetooth devices with your Samsung Intrepid, make sure your device is visible to other devices. See "Using the Bluetooth Settings Menu" on page 50.

To pair your device with another Bluetooth device:

1. From the **Wireless Manager**, press **Menu** (right softkey) > **Bluetooth Settings**.
2. Touch the **Devices** tab and tap the **Add new device...** (Your device will display a list of discovered in-range Bluetooth devices.)
3. Scroll down the list, touch a device name and press **Next** (right softkey) to begin the pairing process.
 - If you do not see your target Bluetooth device, touch the onscreen **Refresh** button.
4. Enter the passcode (PIN) for the external device and press **Next** (right softkey).
5. Once the recipient enters the passkey/passcode or accepts the pairing, press **Done** (left softkey) to complete the process.

Note

Due to different specifications and features of other Bluetooth-compatible devices, display and operations may be different, and functions such as transfer or exchange may not be possible with all Bluetooth-compatible devices.

Sending Data via Bluetooth

You can send data saved on your device to another Bluetooth-enabled device.

To send contacts information via Bluetooth:

1. Press  > **Contacts**.
2. Use the navigation key to highlight an entry and press **Menu** (right softkey) > **Send Contact** > **Beam**.
(The device begins searching for available Bluetooth devices. Bluetooth-capable phones will appear in the list with an adjacent phone icon.)
3. Select a target Bluetooth device from the list by touching either the name of the device or **Tap to send**.
4. Press  when transfer is done.

To send pictures via Bluetooth:

1. Press  > **Pictures & Videos** and select a picture.
2. Highlight the image from the page and press **Menu** (right softkey) > **Beam...**
3. Select a target Bluetooth device from the list by touching either the name of the device or **Tap to send**.
4. Press  when transfer is done.

Section 2

Sprint Service

2A. Sprint Service: The Basics

- ◆ Voicemail (page 54)
- ◆ Text Messaging (SMS) (page 55)
- ◆ Caller ID (page 57)
- ◆ Call Waiting (page 58)
- ◆ Making a Three-Way Call (page 58)
- ◆ Call Forwarding (page 59)
- ◆ Roaming (page 59)

Voicemail

Setting Up Your Voicemail

Your device automatically transfers all unanswered calls to your voicemail, even if your device is in use or turned off. You should set up your Sprint Voicemail and personal greeting as soon as your device is activated.

1. Press and hold **1 E**.
2. Follow the system prompts to:
 - Create your passcode.
 - Record your name announcement.
 - Record your greeting.

Note

Voicemail Passcode

Sprint strongly recommends that you create a passcode when setting up your voicemail to protect against unauthorized access. Without a passcode, anyone who has your device can access your messages and place outbound calls through your wireless account.

Voicemail Notification

There are several ways your device alerts you to a new message:

- Via the **Voicemail** popup (left softkey) on the Today screen.
- Via a numeric display on the **voicemail** field.
- From the Status Bar icons area, touch  > .

Retrieving Voicemail Messages

When you receive a new voice message, your device alerts you and prompts you to call your voicemail (see above).

To call your voicemail:

- ▶ Press and hold .

To call your voicemail from another phone:

1. Dial your wireless phone number.
2. When your voicemail answers, press  and then enter your passcode.

Note

When you are roaming off the Nationwide Sprint Network, you may not receive notification of new voicemail messages. Sprint recommends that you periodically check your voicemail by dialing 1 + area code + your wireless phone number. When your voicemail answers, press  and enter your passcode. Roaming rates apply when you access voicemail while roaming off the Nationwide Sprint Network.

Your device accepts messages even when it is turned off. However, your device notifies you of new messages only when it is turned on and you are in a Sprint service area.

Text Messaging (SMS)

With text messaging (SMS), you can send and receive instant text messages between your wireless device and another messaging-ready phone. When you receive a new message, it will automatically display on your device's screen.

In addition, text messaging includes a variety of preset messages, such as “Where are you?” that make composing messages fast and easy. Use your device to customize your own preset messages.

Tip You can instantly access all your device's messaging options, including Text Messaging, using the text field located on the Today screen.

Note See your service plan for applicable charges for Text Messaging and SMS Voice Messaging.

Note Creating messages can also be accessed by pressing  on the keyboard.

Composing Text Messages

1. Press  > **Text**.
– or –

From the Today screen, scroll through the onscreen options and touch the **text** field.

2. Press **Menu** (right softkey) > **New**.
3. Touch the **+ Tap to add recipients** box to select:
 - **Phonebook** to select a recipient from your Contacts (qualifying Contacts entries must contain a wireless phone number or an email address).
 - Touch an entry and press **Select** (left softkey).
 - **Call Log** to select from a list of recent calls.
 - Touch an entry and press **Select** (left softkey).
 - **Group** to select a group of recipients. This Group can contain multiple entries.
 - Touch multiple entries and press **Select** (left softkey).
 - **Enter Manually** to enter a wireless phone number directly. (Remember to use the  key to enter numbers).
 - Enter the number and press **Done** (left softkey).

4. Touch the text field and enter a message or use the preset messages or emoticons (smileys).
 - To type a message, use your keyboard to enter your message.
 - Press **Menu** (right softkey) > **Insert** > **My Messages** to insert preset messages.
5. Press **Send** (left softkey) to deliver your message.

Note

There is a 160-character limit for each text message. If your message exceeds 160 characters, the remaining characters are placed into an additional message.

Accessing Text Messages

To read a text message:

When you receive a text message, you will automatically see it on your device's screen within a New Text Message popup. Use your navigation key to scroll down and view the entire message.

1. Press  > **Text**.
 - or –

From the Today screen, scroll through the onscreen options and touch the **text** field.

To reply to a text message:

1. From the Today screen, press the **Notification** (left softkey) > **Reply** (left softkey).

– or –

While the message is open, use your keyboard to compose your reply or use the preset messages or icons.

2. Press **Send** (left softkey) to deliver your message.

Caller ID

Caller ID allows people to identify a caller before answering the device by displaying the number of the incoming call. If you do not want your number displayed when you make a call, follow these steps.

To block your phone number from being displayed when you make a call:

1. Press    .
2. Enter the number you want to call.
3. Press .

To permanently block your number, call Sprint Customer Service.

Call Waiting

When you're on a call, Call Waiting alerts you to incoming calls by sounding two beeps. Your device's screen informs you that another call is coming in and displays the caller's phone number (if it is available and you are in digital mode).

To respond to an incoming call while you're on a call:

- ▶ Press  or **Answer** (left softkey). (This puts the first caller on hold and answers the second call.)

To switch back to the first caller:

- ▶ Press  or **Answer** (left softkey) again.

Tip

*For those calls where you don't want to be interrupted, you can temporarily disable Call Waiting by pressing *70 before placing your call. Call Waiting is automatically reactivated once you end the call.*

Making a Three-Way Call

With Three-Way Calling, you can talk to two people at the same time. When using this feature, the normal airtime rates will be charged for each of the two calls.

1. Enter a number and press .
2. Once you have established the first connection, press  and wait for a dial tone. (This puts the first caller on hold and dials the second number. The word **In Call** appears on the screen.)
3. Dial the second number and press .

– or –

Press **Keypad** (left softkey) and select the second number by touching one of the following:

- **Contacts** to select a recipient from your Contacts (qualifying Contacts entries must contain a wireless phone number or an email address).
- **Recent History** to select a number from your Recent History entries.
- **Enter phone number** to use the keyboard to enter a wireless phone number directly.

- When you're connected to the second party, press  again to begin your three-way call.

If one of the people you called hangs up during your call, you and the remaining caller stay connected. If you initiated the call and are the first to hang up, all callers are disconnected.

Call Forwarding

Call Forwarding lets you forward all your incoming calls to another phone number – even when your device is turned off. You can continue to make calls from your device when you have activated Call Forwarding.

To activate Call Forwarding:

- Press   .
- Enter the area code and phone number to which your future calls should be forwarded.
- Press . (You will hear a tone to confirm the activation of Call Forwarding.)

To deactivate Call Forwarding:

- Press    .

- Press . (You will hear a tone to confirm the deactivation.)

Note

You are charged a higher rate for calls you have forwarded.

Roaming

Roaming Icon

Your display screen always lets you know when you're off the Nationwide Sprint Network. Anytime you are roaming, the device displays the roaming icon (). If you are roaming on a digital system, you will see the roaming icon along with the text – **Digital Roam** –.

Tip

Remember, when you are using your device off the Nationwide Sprint Network, always dial numbers using 11 digits (1 + area code + number).

Note

If you're on a call when you leave the Nationwide Sprint Network, your call is dropped. If your call is dropped in an area where you think Sprint service is available, turn your device off and on again to reconnect to the network.

Checking for Voicemail Messages While Roaming

When you are roaming off the Nationwide Sprint Network, you may not receive on-device notification of new voicemail messages. Callers can still leave messages, but you will need to periodically check your voicemail for new messages if you are in a roaming service area for an extended period of time.

1. Dial 1 + area code + your phone number.
2. Press .
3. Enter your passcode at the prompt and follow the voice prompts.

When you return to the Nationwide Sprint Network, voicemail notification will resume as normal.

Setting Roam Mode

Your device allows you to control your roaming capabilities. By using the Roaming menu option, you can determine which signals your device accepts.

Choose from two different settings on your dual-band device to control your roaming experience.

1. Press  > **Settings** > **Personal** > **Phone**.
2. Touch the **Services** tab.
3. Scroll down the list, touch **Roaming** and tap the **Change Setting** button.
4. Touch a **Set Mode** option:
 - **Sprint Only** to access only the Nationwide Sprint Network and prevent roaming on other networks.
 - **Automatic** to seek service on the Nationwide Sprint Network. When Sprint service is unavailable, the device searches for an alternate system.
5. Press  to store the new setting.

Tip

For more information about roaming options, including setting Call Guard and Data Roam Guard, visit sprint.com/support to see the online user guide.

2B. Web and Data Services

- ◆ *Getting Started With Data Services (page 61)*
- ◆ *Browser Menu (page 63)*

Getting Started With Data Services

With your Sprint service, you are ready to start enjoying the advantages of data services. This section will help you learn the basics of using your data services, including managing your user name, launching a data connection, and navigating the Web with your device.

Your User Name

When you buy your device and sign up for service, you're automatically assigned a user name, which is typically based on your name and a number, followed by "@sprintpcs.com." (For example, the third John Smith to sign up for Sprint data services might have jsmith003@sprintpcs.com as his user name.)

When you use data services, your user name is submitted to identify you to the Nationwide Sprint Network. Your user name will be automatically programmed into your device. You don't have to enter it.

Finding Your User Name

If you aren't sure what your user name is, you can easily find it on your device.

- ▶ Press  > **Settings** > **System** > **EVDO Data**.
 - Your information is available within the *User Name* field.

Updating Your User Name

If you choose to change your user name and select a new one online, you must then update the user name on your device.

- ▶ Press  > **Settings** > **System** > **EVDO Data** > **Menu** (right softkey) > **Update Data Profile**. (To cancel, press  or touch **CANCEL** (right softkey) before completing the update.)

Launching a Web Connection

- Press  > **Internet Explorer**. (Your data connection starts and you see the SprintWebSM home page.)

While connecting, you may see an animation and a “Connecting” message.

Navigating the Web

Navigating through menus and websites during a data session is easy once you’ve learned a few basics. Here are some tips for getting around:

1. Press  > **Internet Explorer**.
2. Once the page is loaded, it is displayed at full screen, touch  to reveal the Web Toolbar.
3. Touch the Address field and use the keyboard to enter your Web address in the field at the top of the screen and press .
 - A list of recently visited websites may appear below the address bar. Touch an entry to go to the site without having to retype the address.

Using the Web Toolbar

By default, your Web pages are displayed in a full screen mode (to maximize the visibility of the online content.) To access some of the browser functions, you must first launch the Web Toolbar.

1. Touch  to reveal the Web Toolbar.

Note

The Web Toolbar buttons will disappear after a few seconds. This helps to keep them from blocking your onscreen content.

2. Touch an icon to perform its action:
 - **Back** () returns you to the previously viewed page.
 - **Favorites** () allows you to access and manage your bookmarks.
 - **Onscreen Keyboard** () displays an onscreen keyboard.
 - **Zoom** () displays an onscreen slider to zoom in or out on the current page.
 - **Menu** () displays browser settings and additional options.

Scrolling

As with other parts of your device's menu, you'll have to scroll up and down to see everything on some websites.

To scroll line by line through websites:

- ▶ Press the navigation key up and down.
 - or –
- In a single motion, touch and drag the screen in either an up or down motion.

Selecting

To select onscreen items:

- ▶ Use the navigation key to highlight an item, and then press .
 - or –
- Touch the onscreen item.

Links, which are displayed as underlined text, allow you to jump to Web pages, select special functions, or even place phone calls.

To select links:

- ▶ Touch the onscreen link.

Going Back

To go back one page:

1. Touch  to reveal the Web Toolbar.
2. Touch .

Going Home

To return to the home page from any other page:

- ▶ Touch  > *Home Page*.

Browser Menu

Opening the Browser Menu

The browser menu may be opened anytime you have an active data session, from any page you are viewing.

To open the browser menu:

- ▶ Touch  to reveal the Web Toolbar, and then touch . (You will see the browser menu.)

Options available under the browser menu include:

- **Home Page.** Returns the browser to the home page.
- **History.** Keeps a list of links to your most recently visited sites. To navigate to a site, highlight it and press , or touch the entry from the list.
- **Forward.** Returns you to a previously viewed page (after having used ).
- **Refresh.** Reloads the current Web page.
- **View.** Displays additional viewing options:
 - **Text Size.** Adjusts the current text size used within the browser.
 - **Enable ActiveX Controls.** Enables ActiveX functionality.
 - **Mobile.** Displays the Web page formatted for a mobile device.
 - **Desktop.** Displays the Web page as it would be seen from a computer desktop.
- **Tools.** Provides additional browser tools.
 - **Send Link...** Allows you to send a URL via SMS, MMS, Email, or Instant Messaging.

- **Properties.** Displays the field properties of the currently active Web page. Press **Close** (left softkey) to return to the previous page.
- **Options.** Provide additional browser options such as: Home Page, Browsing History, Privacy and Security, Languages, and Other preferences.

- **Copy/Paste.** Displays editing options:
 - **Make Selection.** Lets you select areas of text within the current Web page and copy them to your temporary clipboard for later use.
 - **Paste.** Lets you paste your previously copied material into a selected location.
- **Exit.** Closes the browser.

Going to a Specific Website

1. From the browser, touch  to reveal the Web Toolbar.
2. Touch the **Address** field at the top of the page.
 - A list of recently visited websites may appear below the address bar. Touch an entry to go to the site without having to retype the address.
3. Enter a Web address and press .

Note

Not all websites are viewable on your device in the Mobile mode. You may have to configure the view mode to Desktop (page 63).

Accessing Bookmarks via the Today Screen

Once a page has been bookmarked, it can be readily available for quick access from the Today screen.

To create quick access bookmarks from the Today screen:

1. From the Today screen, scroll through the onscreen options and locate the **favorites** field.
2. Scroll across the field to reveal the **Add/Remove** option. Tap this onscreen option.
3. Touch a bookmark from the list.
4. Press **Done** (right softkey).

2C. Entertainment: TV and Music

- ♦ TV (page 66)
- ♦ Music – Sprint Music Store (page 67)

Sprint TV gives you the ability to listen to audio clips and to view video clips right from your device's display. Watch live TV and catch up on episodes of your favorite shows – anywhere on the Nationwide Sprint Network.

Sprint Music lets you preview, purchase, download, and listen to over a million songs right on your device. You can even add songs from your own library to round out your on-the-go playlist.

TV

Watching TV

1. Press  > **Sprint TV**. Depending on your settings, your device may prompt you to accept a data connection.
2. Select **Sprint TV**, **Sprint Radio**, or **Premium Channels** to display channel options.
3. Use your navigation key and press  to select a channel from the Sprint TV listings or to select an available category.

Note

*The first time you access a channel, the system will prompt you to purchase access (unless the channel doesn't have a monthly fee). Select **Subscribe** to purchase access, or select **Preview** to view a preview of the selected channel.*

4. If applicable, highlight a clip and press  to view the program. The clip will automatically load and begin playing.

Music – Sprint Music Store

The Sprint Music Store lets you purchase and download digital music files to play on your device or computer.

Accessing the Sprint Music Store

You can access the Sprint Music Store right from your device's main menu, anywhere on the Nationwide Sprint Network. When you enter the store for the first time, the system will prompt you to set up your user identification and password.

1. Press  > **SprintMusicStore**.
2. If prompted, follow the onscreen instructions to establish your User ID and password.

Tip

Your User ID for the Sprint Music Store is your 10-digit wireless phone number. The password may be any 4-digit number.

3. Scroll around the screen or use your keyboard and navigation key to explore the store.

Purchasing and Downloading Music

Now that you're in the store, you can shop for songs to purchase and download to your device's microSD card.

1. From the Sprint Music Store opening page, select an option to browse the store:
 - **Search** gives you the option of searching for specific songs or artists. Just use your keyboard to enter your search criteria in the available field.
 - **Featured** offers a revolving selection of highlighted songs and artists.
 - **Genres** allows you to choose from music genres.
 - **Categories** allows you to choose from categories such as Top 10s, New This Week, What's Hot, Songs You Know, and specific musical genres.
 - **Ringers** gives you access to ringtones.
 - **Help** displays Music Store help topics.
2. Select a song by touching the name from the list. (You will see the song information screen.)

3. Touch an option:

- **Preview** to play an audio clip of the selected song.
- **Free** to download a free audio clip from the music store.
- **Buy** to purchase the song and download it to your device's optional microSD card.
 - When you select **Buy**, the file will download to your My Documents folder. (If there is no microSD card installed or if there is not enough free memory space on the card, you will see an alert.)
 - Once the song has been downloaded the song will be played automatically.

2D. GPS Navigation

- ◆ *GPS Services* (page 69)
- ◆ *Sprint Navigation* (page 69)

GPS Services

Your device's built-in GPS capability gives you access to a number of location-based services, including *Sprint Navigation*, *Share Addresses*, and *Tellme*.

Activating Location Mode

Before using any of the location-based services, you must turn on your device's location mode.

1. Press  > *Settings* > *Personal* > *Phone*.
2. Touch the *Services* tab.
3. Scroll down the list, touch *Location* and tap the onscreen *Change Setting* button.

4. Select *Location on*.

- *Location on* allows the network to detect your position using GPS technology. This makes some Sprint applications and services easier to use.

5. Press  to assign the new setting.

Sprint Navigation

Sprint Navigation gives you turn-by-turn directions onscreen and over speakerphone.

Note Depending on your service plan, *Sprint Navigation* may require a monthly subscription. Contact Sprint for information and pricing.

Registering Sprint Navigation

Before you can use Sprint Navigation, your device and service must be registered.

1. Press  > *SprintNav*.
2. Read the warning disclaimer and touch *Accept* (right softkey) to acknowledge the Terms of Service.

3. Touch each of the onscreen registration fields and use the keyboard to enter the required information. Your phone number is already pre-populated.
4. Touch **Go** (right softkey) to register.
5. Read the driving usage warning disclaimer and touch **Go** (right softkey) to acknowledge the terms of use.
6. Touch **Yes** to take a brief tour of the Navigation features and functionality, or **No** to continue to the main navigation screen.

Using Sprint Navigation

1. Press  > *SprintNav*.
2. Select an option and follow the onscreen instructions.
 - **Drive To** lets you get driving directions from wherever you are to wherever you're going. Choices include:
 - **My Favorites**: user-defined favorite locations.
 - **Recent Places**: recently entered locations.
 - **Address**: manually or vocally entered street addresses.

- **Intersection**: manually locate a specific address by using two separate street addresses to identify an intersection.
 - **City**: manually enter a city/state location to view overall city information.
 - **Business**: locations based on business categories.
 - **Airport**: local airports based on current GPS location.
- **Search** lets you search for locations from dozens of options such as Food/Coffee, Hotels & Motels, Gas Stations, Gas by Price, Banks/ATMs, WiFi Spots, and Parking Lots.
 - **Maps & Traffic** provides access to 2D and 3D maps for your current location and for several categories of locations such as Airports and Contacts.
 - **Share & More** offers additional options, such as sharing your location with contacts, creating and storing My Favorites locations, accessing the product tour, and setting detailed application preferences.

2E. Sprint Worldwide Wireless Service

- ◆ *Your SIM Card (page 71)*
- ◆ *Using Your Device While Traveling (page 73)*
- ◆ *Retrieving Voicemail Messages (page 76)*
- ◆ *International Data Roaming (page 76)*
- ◆ *Using Your SIM Card's PhoneBook (page 77)*
- ◆ *Setting GSM Services Options (page 79)*
- ◆ *Contacting Sprint (page 80)*

Your device allows you to roam throughout the world using CDMA, GSM, and UMTS networks. For a complete list of countries and features available, visit www.sprint.com/sww.

Note

To use Sprint international roaming services, you must be a current Sprint subscriber. You must also meet international toll authorization and credit requirements to roam in most places outside of the United States. Depending on your overseas location and coverage, you may not have access to all features. Service may be interrupted if you change phones or phone numbers before traveling abroad.

Your SIM Card

Your device comes with a pre-installed SIM (Subscriber Identity Module) card to support roaming on compatible GSM and UMTS networks. The SIM card must be installed and then enabled for international wireless service prior to its initial use (outside of the United States).

Enabling Sprint Worldwide Services

- Visit www.sprint.com/international.
 - Click **Chat with us** to talk online with a Sprint representative.
 - or –

- Click **Email us** to send an email to a Sprint representative.

– or –

- ▶ Call **1-888-226-7212, option 2**, to speak to a Sprint representative.

Installing Your SIM Card

Note Your SIM card should be preinstalled. If you need to reinstall your SIM card, follow the instructions below.

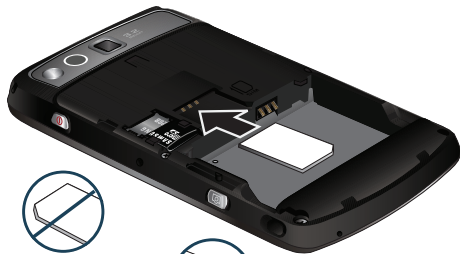

1. Remove the battery cover.
 - Press down on the battery cover and slide the cover away from the camera lens.
2. Remove the battery.
 - Grasp the bottom left and right sides of the battery and lift it out of the compartment.

WARNING Do not handle a damaged or leaking Li-Ion battery as you can be burned.

3. With the gold contacts facing downward, and the cut corner at the bottom right, carefully insert the SIM card into the opening and firmly push it in.

WARNING

Do not forcibly insert the card too far into the slot as this can damage the device's connector and avoid proper contact.

Incorrect

Correct

4. Reinstall the battery and replace the battery cover.
5. Press  to turn the device on.
 - Your device will turn on, search for Sprint service, and then show the Today screen.

- If your device does not detect a SIM card while in GSM mode, it will display  in the upper-right corner of the Today screen.

Note All GSM, Global, and SIM menus and options noted in this guide are available only when a valid SIM card is properly installed in the device.

Using Your Device While Traveling

Your device is designed to enter global roaming mode automatically when you enable your Sprint Worldwide service, meaning that it should automatically connect to an appropriate CDMA, GSM, or UMTS network when you travel. Upon arriving in a country with CDMA voice and GSM voice and data coverage, you must change the device to **GSM only** mode to be able to access data services. You will need to change your device back to **Global** mode when returning home or to a CDMA destination.

GSM Mode Setup

To select GSM only mode:

1. Press  > **Settings** > **Personal** > **Phone**.

2. From the **Network** tab, touch the **Mode of operation** field and select **GSM only**. Options include:
 - **CDMA only** configures the device to communicate only with CDMA networks.
 - **GSM only** configures the device to communicate only with GSM networks.
 - **Global** configures the device to communicate with CDMA, GSM, or UMTS networks when detected.
3. Complete the following GSM network selection procedures.

Note While in the United States, your device will operate only in CDMA mode; domestic GSM networks will not be accessible via this device.

Selecting a GSM Network

When using the device in GSM/UMTS mode, it will automatically search for compatible networks; however, you may need to manually select a different carrier to access data services.

1. Press  > **Settings** > **Personal** > **Phone**.
2. From the **Network** tab, touch the **GSM Network selection** field.

3. Select *Automatic* or *Manual*.

- If you selected *Automatic*, the system will provide the best available network in your area and then assign it to your device.
- If you selected *Manual*, the device will search for any compatible and available network. You will need to choose from the list of available networks and then manually make the assignment.

4. When set to *Manual*, touch an available network entry and touch **OK**. This registers your device on the selected GSM network.

Note If you will be traveling between networks, you should choose *Global* as your preferred setting.

Viewing Your Preferred Networks

1. Press  > *Settings* > *Personal* > *Phone* > *Network*.
2. From the *GSM Network selection* field, select *Manual*.
 - The Current Network field displays a description of the currently active network.
3. Touch *Select*.

To add a new preferred network:

1. Repeat steps 1 - 3 from “Viewing Your Preferred Networks” to access the Preferred Networks screen.
2. Touch *Set Networks*.
3. Touch *New Network...* and enter a numeric code or select a network from the list and touch **OK**. (This newly added network then appears on the Preferred Networks screen.)

Making and Answering Calls While Traveling

When traveling on international networks, placing and receiving calls is similar to placing and answering calls from home. See “Making and Answering Calls” on page 11. Certain features and services are not available in all countries.

Certain features and services are not available in all countries. Visit www.sprint.com/sww for more information on services that are available while roaming.

Calling Emergency Numbers in GSM Mode

When traveling on international GSM networks in GSM mode, you can place calls to emergency services by dialing 112. Please note that dialing 112 works in many but not all countries. Please contact local sources for emergency numbers in your destination(s).

► Press    .

Using Plus (+) Code Dialing

Placing calls from one country to another country is simple with the Plus (+) Code Dialing feature. When placing international calls, you can use Plus Code Dialing to automatically enter the international access code for your location (for example, 011 for international calls placed from the United States).

To use Plus Code Dialing to place an international call:

1. Press and hold  until a “+” is displayed on the device’s display screen.

2. Enter the country code, city code or area code, and the phone number you’re calling, and then press . (The access code for international dialing will automatically be dialed, followed by the country code, city or area code, and the phone number.)

Direct Dialing

To place an international call by dialing direct:

1. Dial the international access code, the country code, the city or area code, and the phone number.
2. Press  to send the call.

Making Calls Within a Country (Local or Long Distance Dialing)

The steps for placing an international call within the same country are identical to those for calling country-to-country, except it is not necessary to enter the country code.

Calling the United States From Another Country

1. Press and hold  to display the “+” symbol. The “+” symbol automatically inserts the exit code for the country from which you are calling.
2. Press   to insert the U.S. country code, and then enter the area code and number.
3. Press  to place the call.

Calling Other Countries

1. Press and hold  to display the “+” symbol. The “+” symbol automatically inserts the exit code for the country from which you are calling.
2. Enter the country code of the number you are calling.
3. Enter the area code without the leading zero, followed by the number of the person you are calling and press .

Retrieving Voicemail Messages

While traveling, you will need your voicemail passcode to check messages.

1. Dial the international access code (or if in GSM mode, press and hold  until a “+” symbol appears on your device display).
2. Enter   followed by your 10-digit phone number.
3. When you hear the voice greeting, press   and enter your password, followed by  .

International Data Roaming

Sprint Worldwide Wireless Service can also keep you connected via email and Web browsing when traveling around the world. Check www.sprint.com/swww to determine the services available where you are traveling.

Note

Prior to using your Sprint Worldwide GSM Data Services, you must establish and use your CDMA data services domestically on the Nationwide Sprint Network.

Getting Started With Data Services

Before you can use Sprint Worldwide Data Services, you must first have these services activated on your account.

- ▶ Visit www.sprint.com/international.
 - Click **Chat with us** to talk online with a Sprint representative.
 - or –
 - Click **Email us** to send an email to a Sprint representative.
 - or –
- ▶ Call **1-888-226-7212, option 2**, to speak to a Sprint representative.

Accessing Data Services While Traveling

When traveling in a country with CDMA voice and GSM voice and data coverage, you will need to change the device to **GSM only** mode to be able to access data services. When in **GSM only** mode, you may need to manually select a different carrier if the device accesses a carrier that does not offer data service. See “Using Your Device While Traveling” on page 73.

Selecting a specific carrier is necessary only for providers on the GSM network. If you set your device to GSM mode while traveling, you will need to set the device back to **Global** mode when you return home or to a country where CDMA service is available. Visit www.sprint.com/swv for a list of services available for each country.

Using Your SIM Card's PhoneBook

Your SIM card contains its own phone book that is separate from your device's internal Contacts list. You can update and maintain the SIM PhoneBook whenever your device has a SIM card installed, even if you are not in a GSM service area.

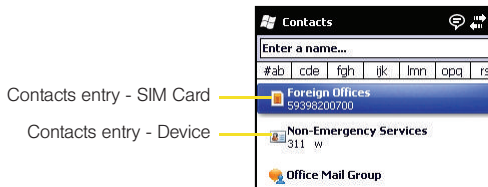

When saving a Contacts entry to your SIM card, note that only the name and number are saved. Entries stored on the card do not contain any detailed information that may be stored in the device's internal memory. To store additional information for a particular contact, such as email addresses or dates, it is important to save that information to your device's onboard memory.

Each Contacts entry stored on the SIM card can use only one phone number, and the entry's name can be a maximum of 255 characters.

Adding Entries to the SIM PhoneBook

1. Press  > **Contacts** > **New** (left softkey) > **SIM Contact**.
2. Enter a name for the new entry and press the navigation key down. See "Entering Text" on page 17.
3. Enter the phone number(s) for the entry.
4. Press  to store the new Contacts entry.

When a SIM card is active, the Contacts list will display two types of entries: SIM card entries and device entries.

Copying Contacts Entries to the SIM PhoneBook

Once your SIM card is installed, you can copy entries from your device's Contacts to your SIM PhoneBook.

To copy a Contacts entry to your SIM PhoneBook:

1. Press  > **Contacts**.
2. Highlight an entry.
3. Press **Menu** (right softkey) > **Copy Contact** > **To SIM**.

Note

The SIM PhoneBook provides two default fields (Name and Phone Number). This information is stored on your SIM card to provide information mobility. When an entry is moved or copied to Contacts, all input fields are then available for entry.

Setting GSM Services Options

There are several user options available for GSM operation under your device's Settings menu, including Call Diverting, Call Barring, Call Waiting, and GSM Network Selection. All these options require that your device be in GSM mode and in a GSM roaming coverage area. (See www.sprint.com/swv for a list of countries where international GSM coverage is available, and see "Using Your Device While Traveling" on page 73.)

Note

For details on your device's options, visit www.sprint.com/support and view your complete User Guide.

Voicemail and Text Messages

To activate voicemail settings:

1. Press  > **Settings** > **Personal** > **Phone**.
2. Touch the **GSM Services** tab.
3. Scroll down the list, touch **Voice Mail and Text Messages** and tap the onscreen **Get Settings...** button.

4. Select the **Voicemail number** field. The number to call your voicemail is then displayed.
5. If instructed by a Sprint representative to change the number, press and hold  to delete the current number and then enter a new number and press  or touch **OK**.

Note

The voicemail access number is automatically set up when you receive your device. You will probably not need to change it unless otherwise instructed by a Sprint representative.

Contacting Sprint

Sprint Worldwide Customer Service is available to answer your questions 24 hours a day, 7 days a week.

Visit www.sprint.com/international and click **Chat with us** to talk online with an International Services representative; or click **Email us** to send an email to an International Services representative;

While in the United States:

- Call **1-888-226-7212, option 2.**

While traveling outside the United States:

- Call **+1-817-698-4199, option 2.**

There is no charge for this call from your Sprint wireless device.

From a landline phone when outside the United States:

Sprint Worldwide Customer Service can be reached from a landline phone at **+1-817-698-4199, option 2.** Access or connection fees may apply. The toll-free numbers below can also be used to contact Sprint Worldwide Customer Service in the following countries.

| Country | From Landline Phone |
|--------------------------|---------------------|
| Canada | 1-888-226-7212 |
| Caribbean (most islands) | 1-888-226-7212 |
| France | 0800-903200 |
| Germany | 0800-180-0951 |
| Italy | 800-787-986 |
| Mexico | 001-877-294-9003 |
| Trinidad and Tobago | 1-800-201-7545 |
| United Kingdom | 0808-234-6616 |

Section 3

***Safety and Warranty
Information***

3A. Important Safety Information

- ◆ *General Precautions (page 82)*
- ◆ *Maintaining Safe Use of and Access to Your Device (page 83)*
- ◆ *Using Your Device With a Hearing Aid Device (page 84)*
- ◆ *Caring for the Battery (page 86)*
- ◆ *Radio Frequency (RF) Energy (page 87)*
- ◆ *Owner's Record (page 89)*
- ◆ *User Guide Proprietary Notice (page 89)*

This guide contains important operational and safety information that will help you safely use your phone. Failure to read and follow the information provided in this phone guide may result in serious bodily injury, death, or property damage.

General Precautions

There are several simple guidelines to operating your device properly and maintaining safe, satisfactory service.

- To maximize performance, do not touch the bottom portion of your device where the internal antenna is located while using the device.
- Speak directly into the mouthpiece.
- Avoid exposing your device and accessories to rain or liquid spills. If your device does get wet, immediately turn the power off and remove the battery.
- Do not expose your device to direct sunlight for extended periods of time (such as on the dashboard of a car).
- Although your device is quite sturdy, it is a complex piece of equipment and can be broken. Avoid dropping, hitting, bending, or sitting on it.
- Any changes or modifications to your device not expressly approved in this document could void your warranty for this equipment and void your authority to operate this equipment.

Note

For the best care of your device, only Sprint-authorized or Samsung-authorized personnel should service your device and accessories. Failure to do so may be dangerous and void your warranty.

Maintaining Safe Use of and Access to Your Device

Do Not Rely on Your Device for Emergency Calls

Mobile devices operate using radio signals, which cannot guarantee connection in all conditions. Therefore you should never rely solely upon any mobile device for essential communication (e.g., medical emergencies). Emergency calls may not be possible on all cellular networks or when certain network services or mobile device features are in use. Check with your local service provider for details.

Using Your Device While Driving

Talking on your device while driving (or operating the device without a hands-free device) is prohibited in some jurisdictions. Laws vary as to specific restrictions. Remember that safety always comes first.

Tip

Purchase an optional hands-free accessory at your local Sprint Store, or call Sprint at 1-800-866-7509.

Following Safety Guidelines

To operate your device safely and efficiently, always follow any special regulations in a given area. Turn your device off in areas where use is forbidden or when it may cause interference or danger.

Using Your Device Near Other Electronic Devices

Most modern electronic equipment is shielded from radio frequency (RF) signals. However, RF signals from wireless devices may affect inadequately shielded electronic equipment.

RF signals may affect improperly installed or inadequately shielded electronic operating systems or entertainment systems in motor vehicles. Check with the manufacturer or their representative to determine if these systems are adequately shielded from external RF signals. Also check with the manufacturer regarding any equipment that has been added to your vehicle.

Consult the manufacturer of any personal medical devices, such as pacemakers and hearing aids, to determine if they are adequately shielded from external RF signals.

Note

Always turn off the device in healthcare facilities, and request permission before using the device near medical equipment.

Turning Off Your Device Before Flying

Turn off your device before boarding any aircraft. To prevent possible interference with aircraft systems, the U.S. Federal Aviation Administration (FAA) regulations require you to have permission from a crew member to use your device while the plane is on the ground. To prevent any risk of interference, FCC regulations prohibit using your device while the plane is in the air.

Turning Off Your Device in Dangerous Areas

To avoid interfering with blasting operations, turn your device off when in a blasting area or in other areas with signs indicating two-way radios should be turned off. Construction crews often use remote-control RF devices to set off explosives.

Turn your device off when you're in any area that has a potentially explosive atmosphere. Although it's rare, your device and accessories could generate sparks. Sparks can cause an explosion or fire, resulting in bodily injury or even death. These areas are often, but not always, clearly marked. They include:

- Fueling areas such as gas stations.
- Below deck on boats.
- Fuel or chemical transfer or storage facilities.
- Areas where the air contains chemicals or particles such as grain, dust, or metal powders.
- Any other area where you would normally be advised to turn off your vehicle's engine.

Note

Never transport or store flammable gas, flammable liquids, or explosives in the compartment of your vehicle that contains your device or accessories.

Restricting Children's Access to Your Device

Your device is not a toy. Do not allow children to play with it as they could hurt themselves and others, damage the device, or make calls that increase your Sprint invoice.

Warning Regarding Display

The display on your handset is made of glass or acrylic and could break if your handset is dropped or if it receives significant impact. Do not use if screen is broken or cracked as this could cause injury to you.

Using Your Device With a Hearing Aid Device

A number of Sprint devices have been tested for hearing aid device compatibility. When some wireless devices are used with certain hearing devices (including hearing aids and cochlear implants), users may detect a noise which can interfere with the effectiveness of the hearing device.

Some hearing devices are more immune than others to this interference noise, and devices also vary in the amount of interference noise they may generate. ANSI standard C63.19 was developed to provide a standardized means of measuring both wireless devices and hearing devices to determine usability rating categories for both.

Ratings have been developed for mobile devices to assist hearing device users find devices that may be compatible with their hearing device. Not all devices have been rated for compatibility with hearing devices. Devices that have been rated have a label located on the box. ***Your SPH-I350 has an M3 and T3 rating.***

These ratings are not guarantees. Results will vary depending on the user's hearing device and individual type and degree of hearing loss. If a hearing device is particularly vulnerable to interference noise, even a device with a higher rating may still cause unacceptable noise levels in the hearing device. Trying out the device with your hearing device is the best way to evaluate it for your personal needs.

M-Ratings: Devices rated M3 or M4 meet FCC requirements for hearing aid compatibility and are likely to generate less interference to hearing devices than unrated devices. (M4 is the better/higher of the two ratings.)

T-Ratings: Devices rated T3 or T4 meet FCC requirements and are likely to be more usable with a hearing device's telecoil ("T Switch" or "Telephone Switch") than unrated devices. (T4 is the better/higher of the two ratings. Note that not all hearing devices have telecoils in them.)

Hearing aid devices may also be measured for immunity to interference noise from wireless devices and should have ratings similar to devices. Ask your hearing healthcare professional for the rating of your hearing aid. Add the rating of your hearing aid and your device to determine probable usability:

- Any combined rating equal to or greater than six offers excellent use.
- Any combined rating equal to five is considered normal use.
- Any combined rating equal to four is considered usable.

Thus, if you pair an M3 hearing aid with an M3 device, you will have a combined rating of six for "excellent use." This is synonymous for T ratings.

Sprint further suggests you experiment with multiple devices (even those not labeled M3/T3 or M4/T4) while in the store to find the one that works best with your hearing aid device. Should you experience interference or find the quality of service unsatisfactory after purchasing your device, promptly return it to the store within 30 days of purchase. With the Sprint 30-day Risk-Free Guarantee, you may return the device within 30 days of purchase for a full refund. More information about hearing aid compatibility may be found at: www.fcc.gov, www.fda.gov, and www.accesswireless.org.

Getting the Best Hearing Device Experience With Your Device

To further minimize interference:

- Set the device's display and dial pad backlight settings to ensure the minimum time interval:
 1. Press  and touch **Settings > System > Backlight > Battery Power/External Power**. Adjust the values within each onscreen tab.
 2. Press  and touch **Settings > System > Backlight > Brightness**. (Brightness is adjustable by moving the slider either left or right.)

- Position the device so the internal antenna is farthest from your hearing aid.
- Move the phone around to find the point with least interference.

HAC/Wi-Fi Language

This phone has been tested and rated for use with hearing aids for some of the wireless technologies that it uses. However, there may be some newer wireless technologies used in this phone that have not been tested yet for use with hearing aids. It is important to try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Consult your service provider about its return and exchange policies and for information on hearing aid compatibility.

Caring for the Battery

Protecting Your Battery

The guidelines listed below help you get the most out of your battery's performance.

- Recently there have been some public reports of wireless device batteries overheating, catching fire, or exploding. It appears that many, if not all, of these reports involve counterfeit or inexpensive, aftermarket-brand batteries with unknown or questionable manufacturing standards. Sprint is not aware of similar problems with Sprint devices resulting

from the proper use of batteries and accessories approved by Sprint or the manufacturer of your device. Use only Sprint-approved or Samsung-approved batteries and accessories found at Sprint Stores or through Samsung, or call 1-866-866-7509 to order.

They're also available at www.sprint.com — click **Accessories**. Buying the right batteries and accessories is the best way to ensure they're genuine and safe.

- In order to avoid damage, charge the battery only in temperatures that range from 32° F to 113° F (0° C to 45° C).
- Don't use the battery charger in direct sunlight or in high humidity areas, such as the bathroom.
- Never dispose of the battery by incineration.
- Keep the metal contacts on top of the battery clean.
- Don't attempt to disassemble or short-circuit the battery.
- The battery may need recharging if it has not been used for a long period of time.
- It's best to replace the battery when it no longer provides acceptable performance. It can be recharged hundreds of times before it needs replacing.
- Don't store the battery in high temperature areas for long periods of time. It's best to follow these storage rules:

Less than one month:

-4° F to 140° F (-20° C to 60° C)

More than one month:

-4° F to 113° F (-20° C to 45° C)

Disposal of Lithium Ion (Li-Ion) Batteries

Do not handle a damaged or leaking Li-Ion battery as you can be burned. For safe disposal options of your Li-Ion batteries, contact your nearest Sprint authorized service center.

Special Note: Be sure to dispose of your battery properly. In some areas, the disposal of batteries in household or business trash may be prohibited.

Radio Frequency (RF) Energy

Understanding How Your Device Operates

Your device is basically a radio transmitter and receiver. When it's turned on, it receives and transmits radio frequency (RF) signals. When you use your device, the system handling your call controls the power level. This power can range from 0.006 watt to 0.2 watt in digital mode.

Knowing Radio Frequency Safety

The design of your device complies with updated NCRP standards described below.

In 1991–92, the Institute of Electrical and Electronics Engineers (IEEE) and the American National Standards Institute (ANSI) joined in updating ANSI's 1982 standard for safety levels with respect to human exposure to RF signals. More than 120 scientists, engineers and physicians from universities, government health agencies and industries developed this updated standard after reviewing the available body of

research. In 1993, the Federal Communications Commission (FCC) adopted this updated standard in a regulation.

In August 1996, the FCC adopted hybrid standard consisting of the existing ANSI/IEEE standard and the guidelines published by the National Council of Radiation Protection and Measurements (NCRP).

Body-Worn Operation

To maintain compliance with FCC RF exposure guidelines, if you wear a handset on your body, use a Sprint-supplied or Sprint-approved carrying case, holster or other body-worn accessory. If you do not use a body-worn accessory, ensure the antenna is at least **7/16 inch (1.5 centimeters)** from your body when transmitting. Use of non-Sprint-approved accessories may violate FCC RF exposure guidelines.

For more information about RF exposure, visit the FCC website at www.fcc.gov.

Specific Absorption Rates (SAR) for Wireless Devices

The SAR value corresponds to the relative amount of RF energy absorbed into the head of a user of a wireless handset.

The SAR value of a phone is the result of an extensive testing, measuring and calculation process. It does not represent how much RF the phone emits. All phone models are tested at their highest value in strict laboratory settings. But when in operation, the SAR of a phone can be substantially less than

the level reported to the FCC. This is because of a variety of factors including its proximity to a base station antenna, phone design and other factors.

What is important to remember is that each phone meets strict federal guidelines. Variations in SARs do not represent a variation in safety.

All devices must meet the federal standard, which incorporates a substantial margin of safety. As stated above, variations in SAR values between different model devices do not mean variations in safety. SAR values at or below the federal standard of 1.6 W/kg are considered safe for use by the public.

The highest reported SAR values of the Samsung Intrepid (SPH-I350) are:

Cellular CDMA mode (Part 22):

Head: 1.07 W/kg; Body-worn: 1.13 W/kg

PCS mode (Part 24):

Head: 1.20 W/kg; Body-worn: 0.59 W/kg

FCC Radio Frequency Emission

This device meets the FCC Radio Frequency Emission Guidelines.

FCC ID number: A3LSPHI350.

More information on the device's SAR can be found from the following FCC website: <http://www.fcc.gov/oet/ea/>.

FCC Notice

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

User Guide Proprietary Notice

User Guide template version 8a_FM (November 2008)

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the direction of the internal antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Owner's Record

The model number, regulatory number, and serial number are located on a nameplate inside the battery compartment.

Record the serial number in the space provided below. This will be helpful if you need to contact us about your device in the future.

Model: Samsung Intrepid™ (SPH-I350)

Serial No.:

3B. Manufacturer's Warranty

◆ Manufacturer's Warranty (page 91)

Your phone has been designed to provide you with reliable, worry-free service. If for any reason you have a problem with your equipment, please refer to the manufacturer's warranty in this section.

For information regarding the terms and conditions of service for your phone, please visit www.sprint.com or call Sprint Customer Service at 1-888-211-4727.

Note

In addition to the warranty provided by your phone's manufacturer, which is detailed on the following pages, Sprint offers a number of optional plans to cover your equipment for non-warranty claims. Sprint Total Equipment Protection provides the combined coverage of the Sprint Equipment Replacement Program and the Sprint Equipment Service and Repair Program, both of which are available separately. Each of these programs may be signed up for within 30 days of activating your phone. For more details, please visit your nearest Sprint Store or call Sprint at 1-800-584-3666.

Manufacturer's Warranty

STANDARD LIMITED WARRANTY

What is Covered and For How Long?

SAMSUNG TELECOMMUNICATIONS AMERICA, LLC ("SAMSUNG") warrants to the original purchaser ("Purchaser") that SAMSUNG's Phones and accessories ("Products") are free from defects in material and workmanship under normal use and service for the period commencing upon the date of purchase and continuing for the following specified period of time after that date:

| | |
|----------------------------|---------|
| Phone | 1 Year |
| Batteries | 1 Year |
| Leather Case/Pouch/Holster | 90 Days |
| Game Pad | 90 Days |
| Other Phone Accessories | 1 Year |

What is Not Covered?

This Limited Warranty is conditioned upon proper use of Product by Purchaser. This Limited Warranty does not cover: (a) defects or damage resulting from accident, misuse, abuse, neglect, unusual physical, electrical or electromechanical stress, or modification of any part of Product, including antenna, or cosmetic damage; (b) equipment that has the serial number removed or made illegible; (c) any plastic surfaces or other

externally exposed parts that are scratched or damaged due to normal use; (d) malfunctions resulting from the use of Product in conjunction with accessories, products, or ancillary/peripheral equipment not furnished or approved by SAMSUNG; (e) defects or damage from improper testing, operation, maintenance, installation, or adjustment; (f) installation, maintenance, and service of Product, or (g) Product used or purchased outside the United States or Canada.

This Limited Warranty covers batteries only if battery capacity falls below 80% of rated capacity or the battery leaks, and this Limited Warranty does not cover any battery if (i) the battery has been charged by a battery charger not specified or approved by SAMSUNG for charging the battery, (ii) any of the seals on the battery are broken or show evidence of tampering, or (iii) the battery has been used in equipment other than the SAMSUNG phone for which it is specified.

What are SAMSUNG's Obligations?

During the applicable warranty period, SAMSUNG will repair or replace, at SAMSUNG's sole option, without charge to Purchaser, any defective component part of Product. To obtain service under this Limited Warranty, Purchaser must return Product to an authorized phone service facility in an adequate container for shipping, accompanied by Purchaser's sales receipt or comparable substitute proof of sale showing the date of purchase, the serial number of Product and the sellers' name and address. To obtain assistance on where to deliver the Product, call Samsung Customer Care at 1-888-987-4357. Upon receipt, SAMSUNG will promptly repair or replace the

defective Product. SAMSUNG may, at SAMSUNG's sole option, use rebuilt, reconditioned, or new parts or components when repairing any Product or replace Product with a rebuilt, reconditioned or new Product. Repaired/replaced leather cases, pouches and holsters will be warranted for a period of ninety (90) days. All other repaired/replaced Product will be warranted for a period equal to the remainder of the original Limited Warranty on the original Product or for 90 days, whichever is longer. All replaced parts, components, boards and equipment shall become the property of SAMSUNG.

If SAMSUNG determines that any Product is not covered by this Limited Warranty, Purchaser must pay all parts, shipping, and labor charges for the repair or return of such Product.

What Are the Limits on SAMSUNG's Liability?

EXCEPT AS SET FORTH IN THE EXPRESS WARRANTY CONTAINED HEREIN, PURCHASER TAKES THE PRODUCT "AS IS," AND SAMSUNG MAKES NO WARRANTY OR REPRESENTATION AND THERE ARE NO CONDITIONS, EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE, OF ANY KIND WHATSOEVER WITH RESPECT TO THE PRODUCT, INCLUDING BUT NOT LIMITED TO:

- THE MERCHANTABILITY OF THE PRODUCT OR ITS FITNESS FOR ANY PARTICULAR PURPOSE OR USE;
- WARRANTIES OF TITLE OR NON-INFRINGEMENT;
- DESIGN, CONDITION, QUALITY, OR PERFORMANCE OF THE PRODUCT;
- THE WORKMANSHIP OF THE PRODUCT OR THE COMPONENTS CONTAINED THEREIN; OR

- COMPLIANCE OF THE PRODUCT WITH THE REQUIREMENTS OF ANY LAW, RULE, SPECIFICATION OR CONTRACT PERTAINING THERETO.

NOTHING CONTAINED IN THE INSTRUCTION MANUAL SHALL BE CONSTRUED TO CREATE AN EXPRESS WARRANTY OF ANY KIND WHATSOEVER WITH RESPECT TO THE PRODUCT. ALL IMPLIED WARRANTIES AND CONDITIONS THAT MAY ARISE BY OPERATION OF LAW, INCLUDING IF APPLICABLE THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE HEREBY LIMITED TO THE SAME DURATION OF TIME AS THE EXPRESS WRITTEN WARRANTY STATED HEREIN. SOME STATES/ PROVINCES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU. IN ADDITION, SAMSUNG SHALL NOT BE LIABLE FOR ANY DAMAGES OF ANY KIND RESULTING FROM THE PURCHASE, USE, OR MISUSE OF, OR INABILITY TO USE THE PRODUCT OR ARISING DIRECTLY OR INDIRECTLY FROM THE USE OR LOSS OF USE OF THE PRODUCT OR FROM THE BREACH OF THE EXPRESS WARRANTY, INCLUDING INCIDENTAL, SPECIAL, CONSEQUENTIAL OR SIMILAR DAMAGES, OR LOSS OF ANTICIPATED PROFITS OR BENEFITS, OR FOR DAMAGES ARISING FROM ANY TORT (INCLUDING NEGLIGENCE OR GROSS NEGLIGENCE) OR FAULT COMMITTED BY SAMSUNG, ITS AGENTS OR EMPLOYEES, OR FOR ANY BREACH OF CONTRACT OR FOR ANY CLAIM BROUGHT AGAINST PURCHASER BY ANY OTHER PARTY. SOME STATES/PROVINCES DO NOT ALLOW THE EXCLUSION OR

LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS, WHICH VARY FROM STATE TO STATE/PROVINCE TO PROVINCE. THIS LIMITED WARRANTY SHALL NOT EXTEND TO ANYONE OTHER THAN THE ORIGINAL PURCHASER OF THIS PRODUCT AND STATES PURCHASER'S EXCLUSIVE REMEDY. IF ANY PORTION OF THIS LIMITED WARRANTY IS HELD ILLEGAL OR UNENFORCEABLE BY REASON OF ANY LAW, SUCH PARTIAL ILLEGALITY OR UNENFORCEABILITY SHALL NOT AFFECT THE ENFORCEABILITY FOR THE REMAINDER OF THIS LIMITED WARRANTY WHICH PURCHASER ACKNOWLEDGES IS AND WILL ALWAYS BE CONSTRUED TO BE LIMITED BY ITS TERMS OR AS LIMITED AS THE LAW PERMITS. THE PARTIES UNDERSTAND THAT THE PURCHASER MAY USE THIRD-PARTY SOFTWARE OR EQUIPMENT IN CONJUNCTION WITH THE PRODUCT. SAMSUNG MAKES NO WARRANTIES OR REPRESENTATIONS AND THERE ARE NO CONDITIONS, EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE, AS TO THE QUALITY, CAPABILITIES, OPERATIONS, PERFORMANCE OR SUITABILITY OF ANY THIRDPARTY SOFTWARE OR EQUIPMENT, WHETHER SUCH THIRD-PARTY SOFTWARE OR EQUIPMENT IS INCLUDED WITH THE PRODUCT DISTRIBUTED BY SAMSUNG OR OTHERWISE, INCLUDING THE ABILITY TO INTEGRATE ANY SUCH SOFTWARE OR EQUIPMENT WITH THE PRODUCT. THE QUALITY, CAPABILITIES, OPERATIONS, PERFORMANCE AND

SUITABILITY OF ANY SUCH THIRD-PARTY SOFTWARE OR EQUIPMENT LIE SOLELY WITH THE PURCHASER AND THE DIRECT VENDOR, OWNER OR SUPPLIER OF SUCH THIRD-PARTY SOFTWARE OR EQUIPMENT, AS THE CASE MAY BE.

This Limited Warranty allocates risk of Product failure between Purchaser and SAMSUNG, and SAMSUNG's Product pricing reflects this allocation of risk and the limitations of liability contained in this Limited Warranty. The agents, employees, distributors, and dealers of SAMSUNG are not authorized to make modifications to this Limited Warranty, or make additional warranties binding on SAMSUNG. Accordingly, additional statements such as dealer advertising or presentation, whether oral or written, do not constitute warranties by SAMSUNG and should not be relied upon.

End User License Agreement for Software

IMPORTANT. READ CAREFULLY: This End User License Agreement ("EULA") is a legal agreement between you (either an individual or a single entity) and Samsung Electronics Co., Ltd. for software owned by Samsung Electronics Co., Ltd. and its affiliated companies and its third party suppliers and licensors that accompanies this EULA, which includes computer software and may include associated media, printed materials, "online" or electronic documentation ("Software"). BY CLICKING THE "I ACCEPT" BUTTON (OR IF YOU BYPASS OR OTHERWISE DISABLE THE "I ACCEPT", AND STILL INSTALL, COPY, DOWNLOAD, ACCESS OR OTHERWISE USE THE SOFTWARE), YOU AGREE TO BE BOUND BY THE TERMS OF THIS EULA. IF YOU DO NOT ACCEPT THE TERMS

IN THIS EULA, YOU MUST CLICK THE "DECLINE" BUTTON, DISCONTINUE USE OF THE SOFTWARE.

1. GRANT OF LICENSE. Samsung grants you the following rights provided that you comply with all terms and conditions of this EULA: You may install, use, access, display and run one copy of the Software on the local hard disk(s) or other permanent storage media of one computer and use the Software on a single computer or a mobile device at a time, and you may not make the Software available over a network where it could be used by multiple computers at the same time. You may make one copy of the Software in machine-readable form for backup purposes only; provided that the backup copy must include all copyright or other proprietary notices contained on the original.

2. RESERVATION OF RIGHTS AND OWNERSHIP. Samsung reserves all rights not expressly granted to you in this EULA. The Software is protected by copyright and other intellectual property laws and treaties. Samsung or its suppliers own the title, copyright and other intellectual property rights in the Software. The Software is licensed, not sold.

3. LIMITATIONS ON END USER RIGHTS. You may not reverse engineer, decompile, disassemble, or otherwise attempt to discover the source code or algorithms of, the Software (except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation), or modify, or disable any features of, the Software, or create derivative works based on the Software. You may not rent, lease, lend,

sublicense or provide commercial hosting services with the Software.

4. CONSENT TO USE OF DATA. You agree that Samsung and its affiliates may collect and use technical information gathered as part of the product support services related to the Software provided to you, if any, related to the Software. Samsung may use this information solely to improve its products or to provide customized services or technologies to you and will not disclose this information in a form that personally identifies you.

5. UPGRADES. This EULA applies to updates, supplements and add-on components (if any) of the Software that Samsung may provide to you or make available to you after the date you obtain your initial copy of the Software, unless we provide other terms along with such upgrade. To use Software identified as an upgrade, you must first be licensed for the Software identified by Samsung as eligible for the upgrade. After upgrading, you may no longer use the Software that formed the basis for your upgrade eligibility.

6. SOFTWARE TRANSFER. You may not transfer this EULA or the rights to the Software granted herein to any third party unless it is in connection with the sale of the mobile device which the Software accompanied. In such event, the transfer must include all of the Software (including all component parts, the media and printed materials, any upgrades, this EULA) and you may not retain any copies of the Software. The transfer may not be an indirect transfer, such as a consignment. Prior to the transfer, the end user receiving the Software must agree to all the EULA terms.

7. EXPORT RESTRICTIONS. You acknowledge that the Software is subject to export restrictions of various countries. You agree to comply with all applicable international and national laws that apply to the Software, including the U.S. Export Administration Regulations, as well as end user, end use, and destination restrictions issued by U.S. and other governments.

8. TERMINATION. This EULA is effective until terminated. Your rights under this License will terminate automatically without notice from Samsung if you fail to comply with any of the terms and conditions of this EULA. Upon termination of this EULA, you shall cease all use of the Software and destroy all copies, full or partial, of the Software.

9. DISCLAIMER OF WARRANTIES. You expressly acknowledge and agree that use of the Software is at your sole risk and that the entire risk as to satisfactory quality, performance, accuracy and effort is with you. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THE SOFTWARE IS PROVIDED "AS IS" AND WITH ALL FAULTS AND WITHOUT WARRANTY OF ANY KIND, AND SAMSUNG AND ITS LICENSORS (COLLECTIVELY REFERRED TO AS "SAMSUNG" FOR THE PURPOSES OF SECTIONS 9, 10 and 11) HEREBY DISCLAIM ALL WARRANTIES AND CONDITIONS WITH RESPECT TO THE SOFTWARE, EITHER EXPRESS, IMPLIED OR STATUTORY, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES AND/OR CONDITIONS OF MERCHANTABILITY, OF SATISFACTORY QUALITY OR WORKMANLIKE EFFORT, OF FITNESS FOR A PARTICULAR PURPOSE, OF RELIABILITY OR

AVAILABILITY, OF ACCURACY, OF LACK OF VIRUSES, OF QUIET ENJOYMENT, AND NON-INFRINGEMENT OF THIRD PARTY RIGHTS. SAMSUNG DOES NOT WARRANT AGAINST INTERFERENCE WITH YOUR ENJOYMENT OF THE SOFTWARE, THAT THE FUNCTIONS CONTAINED IN THE SOFTWARE WILL MEET YOUR REQUIREMENTS, THAT THE OPERATION OF THE SOFTWARE WILL BE UNINTERRUPTED OR ERROR-FREE, OR THAT DEFECTS IN THE SOFTWARE WILL BE CORRECTED. NO ORAL OR WRITTEN INFORMATION OR ADVICE GIVEN BY SAMSUNG OR A SAMSUNG AUTHORIZED REPRESENTATIVE SHALL CREATE A WARRANTY. SHOULD THE SOFTWARE PROVE DEFECTIVE, YOU ASSUME THE ENTIRE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF IMPLIED WARRANTIES OR LIMITATIONS ON APPLICABLE STATUTORY RIGHTS OF A CONSUMER, SO THESE EXCLUSIONS AND LIMITATIONS MAY NOT APPLY TO YOU.

10. EXCLUSION OF INCIDENTAL, CONSEQUENTIAL AND CERTAIN OTHER DAMAGES. TO THE EXTENT NOT PROHIBITED BY LAW, IN NO EVENT SHALL SAMSUNG BE LIABLE FOR PERSONAL INJURY, OR ANY INCIDENTAL, SPECIAL, INDIRECT OR CONSEQUENTIAL DAMAGES WHATSOEVER, OR FOR LOSS OF PROFITS, LOSS OF DATA, BUSINESS INTERRUPTION, OR FOR ANY PECUNIARY DAMAGES OR LOSSES, ARISING OUT OF OR RELATED TO YOUR USE OR INABILITY TO USE THE SOFTWARE, THE PROVISION OF OR FAILURE TO PROVIDE SUPPORT OR

OTHER SERVICES, INFORMATION, SOFTWARE, AND RELATED CONTENT THROUGH THE SOFTWARE OR OTHERWISE ARISING OUT OF THE USE OF THE SOFTWARE, OR OTHERWISE UNDER OR IN CONNECTION WITH ANY PROVISION OF THIS EULA, HOWEVER CAUSED, REGARDLESS OF THE THEORY OF LIABILITY (CONTRACT, TORT OR OTHERWISE) AND EVEN IF SAMSUNG HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. SOME JURISDICTIONS DO NOT ALLOW THE LIMITATION OF LIABILITY FOR PERSONAL INJURY, OR OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS LIMITATION MAY NOT APPLY TO YOU.

11. **LIMITATION OF LIABILITY.** Notwithstanding any damages that you might incur for any reason whatsoever (including, without limitation, all damages referenced herein and all direct or general damages in contract or anything else), the entire liability of Samsung under any provision of this EULA and your exclusive remedy hereunder shall be limited to the greater of the actual damages you incur in reasonable reliance on the Software up to the amount actually paid by you for the Software or US\$5.00. The foregoing limitations, exclusions and disclaimers (including Sections 9, 10 and 11) shall apply to the maximum extent permitted by applicable law, even if any remedy fails its essential purpose.

12. **U.S. GOVERNMENT END USERS.** The Software is licensed only with "restricted rights" and as "commercial items" consisting of "commercial software" and "commercial software

documentation" with only those rights as are granted to all other end users pursuant to the terms and conditions herein.

13. **APPLICABLE LAW.** This EULA is governed by the laws of TEXAS, without regard to conflicts of laws principles. This EULA shall not be governed by the UN Convention on Contracts for the International Sale of Goods, the application of which is expressly excluded. If a dispute, controversy or difference is not amicably settled, it shall be finally resolved by arbitration in Seoul, Korea in accordance with the Arbitration Rules of the Korean Commercial Arbitration Board. The award of arbitration shall be final and binding upon the parties.

14. **ENTIRE AGREEMENT; SEVERABILITY.** This EULA is the entire agreement between you and Samsung relating to the Software and supersedes all prior or contemporaneous oral or written communications, proposals and representations with respect to the Software or any other subject matter covered by this EULA. If any provision of this EULA is held to be void, invalid, unenforceable or illegal, the other provisions shall continue in full force and effect.

Precautions for Transfer and Disposal

If data stored on this device is deleted or reformatted using the standard methods, the data only appears to be removed on a superficial level, and it may be possible for someone to retrieve and reuse the data by means of special software.

To avoid unintended information leaks and other problems of this sort, it is recommended that the device be returned to Samsung's Customer Care Center for an Extended File System

(EFS) Clear which will eliminate all user memory and return all settings to default settings. Please contact the **Samsung Customer Care Center** for details.

Important

Please provide warranty information (proof of purchase) to Samsung's Customer Care Center in order to provide this service at no charge. If the warranty has expired on the device, charges may apply.
